**Mayank Sultania** : I still remember when we met it was for the physics lab and then we started discussing about lots of our courses Like Ed and all, and you are very hard-working as well as worrying about grades( pls dont take such tensions now bhai). Apni baat kabhi khatam hui hai kya ya apan ko stop karni padi hai ... yar kfi chiz hoti hai baaf krne ke liye and Apple will remain the common favourite. Aise hi mehnat karte reh bhai, but thoda tension kam liya kar and han apni first year wali dance at Kireeti's room, he still has no clue of how he could stop us and get us out. Bad Blood song, bhai yaad hi hoga ki kya karte the apan qnd teri pure songs ki analysis with its parody ( it was at next level). Cheers!

**Rishabh Raj** : Oohlala! Look who it is! Our friendship gradually built up during our NSO Badminton days. You were my favourite partner and opponent. Really loved playing with you :D. Most fun was when we teamed up for our group-of-2 workouts. Still remember holding each other's legs and scurrying across the baddy hall 😂! Then ice-cream factory, Delhi highway... fast forward to hugs when we met after long times, late night walks... Your laugh is etched inside my mind. Seriously, it cheers me up :D (HS ma'am going ghawghawghaw 😂)! Starbucks is still left, but hopefully we'll fulfil that too someday. And don't worry about acads so much! Chill hai sab! Ho jayega tumse :D! 700 chars :|. Acha, meet you soon!

**Navnit Kumar** : Hola Mr. Engineer time pe aaja kabhi :P

**Varun Sule** : Hey Bhatia, dusron ko convince karna koi aapse seekhe. I still don't think anyone can match you in your sheer willpower, which we have mostly seen materializing in the form of your unmatched cribbing powers. Mujhe sabke crushes nahi janne hote, but tere raazon ka jo conclusion nikala tha woh toh mujhe lag raha hain sach tha. Will miss fussing over the cats in Maverixx with you. Best of luck, and stay in touch!

**Mudita Rana** : Hi Aniket!! I'll always remember you as the guy who worked and fought the absolute hardest for a branch change from chemical :p coming to think of it, maybe you did make the right decision :p yes, freshie year baddy drills still haunt me 🤔 it was fun with you around in the first year. All the best for all your endeavors! Keep smiling 🧡

**Apurv Tiwari** : Aniiiiiket! <3 Mere final sem ke wingie (jab tak chala sem) and I have troubled you so many time late night, sorry for that :P Mafia khelna and all random discussions were fun. Tum pyaare ho kafi and stay like that always and may you grow and learn a lot of things! <3

**Arjav Shah** : Bhatia! First year interactions were so much fun - From those unending cribs from you to being in the same lab groups, it was exciting! Man, I've never seen someone as serious as you towards anything & everything! I wish we'd interacted more in the later years. You deserve all the success you've had so far! Wish you the very best & hope to stay connected. Cheers!

**Sigireddi Yamuna Devi :** Hey Aniket! It was fun working with you in biotech club. All those after meet discussions, where you most probably rant about elec labs :P. The one time we did origami was so fun!! I hope you and sharath finally came to an agreement upon whatever you were arguing at the night of the interviews 😊 I wish that you will be able to panic less in future ( but um....let's see). All the best!! <3

**Bhishma Dedhia :** Yo Oniket! BC karke mile the apan. H3 mess discussions with you on everything under the sun were the best and kaafi yaad ayenge. I also fondly remember the infy H3/4 to LCH walks before all of us started using cycles :p if you give me some part of your extreme fitness, maybe I'll tell you how you can sneak in Shiru ki coffee in LCH xD Final year macha dena and the next time I meet you, you better be 100x more shredded :p Keep in touch <3

**Shubham Punjabi :** Aniket man! Always heard a lot about how you are the crib god, maggu etc. Turns out you are kind of an all rounder yaar. Seeing you ace the gym and acads together was motivational. Cats are always ♥ man. Hoping to see more of them when I visit insti 😊.Best of luck for the future, I know you are gonna rock!
