You might be the only guy alongside viral who has actually "worked" in elec subsystem from our batch xD. You were the Kolambe equivalent in our team, yet being a typical badass Indu! There are infinite qualities in you that I can't even point out! You know who you really are and are incredibly self-reliant. JDE year nightouts would never have been the same without you! Stay in touch bhawa!

**Barath Krishna S :** Yo Indrajeet! Thank you for everything you've done for me and the team <3. I've always looked up to you as a machau and cool senior and you never hesitated to help me when I needed it(though you may not have realized it :P). We'll all miss you and all the best! <3
