Toshan Kharumnuid : Trishant the God, the insanely smart person who had the misfortune of having a Real Madrid fan as his roomie XD Taking jibes at Sisodiya wouldn't have been half as fun without you around. You've got great things ahead of you, good luck, take care and stay in touch bro

Vipul Ramtekkar : Troyyyyy yaar! 6 saal ho gaye and it's been an amazing journey! Tu neeche wale wing mein rehna was soo much fun. Saath mein khaane jaate the and first year mein har cheez saath hi ki hai. Thank god tu 18 aaya toh thoda milne baadh gaya. Kitne plans ditch kiye hai but jabhi aaya hai it has been super fun. "Mala marathi nahi yet" and "spooky" itni baar suna hai xD. Tu bohot smart hai and tere hardwork is commendable. Horror mein tera aur marmik ka daara hua chahera dekhna was something! Asphalt ko woh game and tere mini militia ke bombs hamesha yaad rahenge xD. Pune mein ghar hai apna toh milte rahenge!!

Goru Meher Ritesh Kumar : Troy Sensei!! Remember the doc you made for me named "Tennis calculations as requested by Ritesh"? Our joint efforts for making a homepage and CV for apping during 5th semester? You are a sweet, down to earth person. Thanks for teaching me chess. I'm gonna disturb you a lot. Best of luck with your future endeavours.

Atharva Jaipurkar : Trishant Boi! IARC ka controls wala banda! Bhai kya efforts maare the tune IARC me! Subha se leke evening tak basketball court me testing, in that summer heat! Hats off for that👏 You have always been helpful to everyone who sought for your help! Without you and amogh the team would not be what it is today!♥ Tere expertise se aise hi team ko guide karte rehna! And always keep working hard as you already do! You will do great! Insti me milte hai 😊 Take Care♥

Pradnesh Patil : T-Roy, Hameri dosti to 11th se hai jab me pehli bar van me aya tha and tum sab se mila tha. We have come quite a way now from you crying that you are gonna end up in the mains batch to you crying that you are gonna fail a course ;p. I couldn't have asked for a better friend. First year me sharing the bean bag, your drone achieving greater heights ;p, Rc ke connections. Agle sal bhi ata rahunga mumbai, bhul mat jana tu ;p <3

Abhro Bhuniya : Troy, tui toh amar bhaier moton. Pune aashbo toh tor shaate dakha korei jaabo. Nahole tui eshe jaash amar baari. Known you since 3rd std man, itne house parties kiye saath me, continuing till insti. Your weird sense of humor, really tickled me. You are ever dependable, ever consistent and so humble! I know you will do great in life, and I am rooting for you man! Lets again take a walk sometime and talk to our hearts content, about anime, tech and the paper you are always writing. We already know you are the true Lord, no need to hide okay?
