Bhishma Dedhia : Yo Sanidhya bhaiya _/_ 700 char. aint enough to describe the bond we share. Apna journey started from convener tenure. Club meets mein bakar karna, TL mein raat bhar debugging karna, club ke sessions mein arbit kuch bhi improvise karna and lab reports milkar likhna, sab kiya apan ne. I am lucky ki BC karke you were among the first people I met in EE. Jab sab log RR karte the tu swag mein bolta tha "Chill hai yeh, ho jayega be" Bahut bakchodhi peli hai sophie year mein milke. What I love about you is kabhi faaltu ka pain nahi leta and hamesha chill rehta hai <3 EE for 3 years with you has been kickass! Aise hi chill rehna final year mein and machate rehna. Keep inspiring and stay in touch <3

Aryan Agal : Saniboi!!!! Tujhse toh co-con jaise baat ki first time. Tere saath kaam karna was probably a privelege few would know about. You know why? Because tu na hi stress leta hai, na stress lene deta hai. Your attitude will give you the best of things in your future. There is a lot to learn from you! Tu chill karke bhi sab handle kar leta hai and that's super admirable. Now that we are pseudo wingies, hope that our interaction increases. Mujhse baat karne aata rha kar mere room :D Ek saal tere saath will surely be a blast!

Shubhankar Mihir Seth : Sanidhya sir, we bonded over our acad senti in first-year while managing each other's weaknesses CH 107 and CS 101. I'll never forget how much entertainment you and Joshi created by fighting constantly, or the fun we had on our cricket discussions and night-out to Marine Drive. Stay in touch!

Vikrant Garg : Sanidhya Chu, a guy who wants to achieve everything in life, sometimes even out of scope. I think first time we met at the time of XLR8 competition and then our friendship took off. Then we participated in ITSP together, played badminton, cricket, and squash. Well, I also tried to teach you swimming. I can't forget you telling me 'let's do business together'. Also, H16 ki teri GPL to yaad hi hogi tujhe. You are such a passionate guy, hope you achieve all your dreams. Stay safe.
