Thanks for every help for my project and lab. You made our connection so healthy that I never hesitate asking help from you :P. Stay connected and keep on doing excellent work.

Thakur Swapniel Singh : Sagar ji, My fellow TIDSP lab partner, ML, Yoga and Guitar expert. 3 years of my TIDSP lab RA_ship ran so smooth, All due to your great support and co-ordination. It was a great experience working with you in the lab-sessions and during this process we became great friends, Your perfection and discipline in work is very commendable and inspiring, Going to our rooms from lab at 6am (when u were on cycle :p), trying to wake up at 5am (XD) during placement sessions are some of the memorable moments to remember, Always there to help and listen, there is always this great respect for you, Bhai ne kar dikaya Japan jaraha hai, so proud of you, Keep rocking there, My best wishes with u,
