

SALIL SALIM MATHEW

Chemical Engineering
Badminton | PT Cell

Athena Susan Sajan : It took me almost a year to break and ask you about the origins of your name. I was expecting an incredible story. Although that did not turn out as expected, I hope when we do see each other again, you will have some kick-ass stories to tell. Cheers Salil Salim Mathew to great years ahead!

Sushant Chavan : Hi salil....True tata fellow...Your silent nature and killer smile always proven you to be hardworking guy. You always look happy as I never remember you scolded or angry on me...During tata centre activities, firstly I always finds you and talk about random things. You had supported me whenever it is needed...God bless you..Take care of yourself and family..and tata centre..haha..
