

CHAVDA KUNAL

Mechanical Engineering

Yearbook
2020

Vardhil Mehta : Kunnu Chavda! Pehli bar apan orientation k din hi mile the. Tu Convo me meri baju me hi baitha tha, pu6 ki "Is form ka kya karna h?". Uske bad coincidentally apan same hostel k same floor me aa gaye, washing machine k pass dikha tha tab :P. 2nd yr me fir H5 aa gaye. Fir to apane kafi debates discussions hue and usually we ended up disagreeing :P. Maths ka lover aaj alag hi Meth se love karta h XD. You always want to do something different. Wish you all the very best for that. Jo bhi karna a66a karna aur macha dena!

Sagar Kumar Seth : Yo Bro ! We became close friends right from our first meeting over mess food. You introduced me to your wing where I gained a partial membership thanks to you. I could relate to you on so many topics and always enjoyed our discussions about things from philosophy to origins of mathematics. Your love for pure mathematics inspired me too. We bonded over our love for anime and games. Insti life has been super fun with you bro ! Later years our interaction was reduced. But I am sure we will catch up and have those deep discussions the next time we meet ! Wish you loads of luck for future bro !

Shubham Jain : Yo Kunal, mast banda hain tu. Tujhse discussion karne mein hamesha maja aata hain. Infi deep points hote hain aur mujhe humesha kuch naya jaane ko milta hain, toone mange mein to alag hi dimensions dikhaye the, well kaafi bigad diya i have to say :P. Your way to explore peculiar and new things is something to admire, and it was great to have as a friend and have an exchange of idead and information. Aise hi machate rahe, and best of luck for your future endeavors!! :), I will be waiting for our discussion on a new topic and also a new peculiar manga!!
