Prasad Raju : Abid, you are the one person I can remember for my whole life. I've learnt many useful things being your roomie, be it Geology or Gaali'ology. You valued me like anything. Even I was messy and might have troubled you but we had very good understanding so never had any issues. The time spent with you was most memorable. I loved your shayaris even though I dint understand single word but felt good when people enjoyed it. You are a simple person just like me and we have many things in common I think that made us good friends. There are lot more things that I can write but this post isn't enough. 'Aur bhayye kyaa haal hai..' would remain forever in my heart. Stay happy. Keep in touch.
