Mandar Sohoni : Had tons of fun working on our Quantum dot system with you! Learned a lot from discussions with you, and will always remember our bitching sessions :D Go make us proud at Princeton!

Sumukh Vaidya : Roomie! mad respect for your dedication and time management skills bruh! Tere gear ka gujju khana to yaad ayega hi ;P. Gard school machana, I'll visit you guys sometime!

Harshal Pawar : Tu hai hi awesome, for your dedication and machayega toh tu pakka hi in Grad school. But tere constant roasts of our every wingie, ke bina maza nahi aata hostel life main..... Also its now your duty to invite us again...gujju khaane ki yaad aati hai :D

Shobhna Misra : The last year was insane, and you really helped me stay sane with all those outings and walks. We will definitely visit each other during grad school! :D Working in the group with you was amazing, and I admire your patience and enthusiasm a lot (I have no clue how you manage to do your work, mine and the work of all the others in the group)! Thank you for helping me whenever I needed it. You are amazing, be the same always! Congratulations for all your admits, and I'm pretty sure Princeton will have way more amazing research because of you! All the best, and stay in touch.

Nicho Priyatham : There is this favourite character of mine "Parth(u)" played by Mahesh Babu in the movie Athadu and you are the closest real life character to it. In other words, you are the best combination of intelligence, smartness, attitude, guts and swagger. Your notes and assignments have literally helped me in passing every single course (thanks to your broker roomie Mounesh). I wish you dedication and hard work brings you more success. All the best, you are a Prince ton!!!
