Atri Dutta : Ghosh babu, ki khobor? love your room. love your taste of music. love how you keep rising out of a ton of insecurities. loved your reliance jio wala question that you asked to that exec. Cant even remember how we met, just that one incident where you had swapped bags with my roomie. slopes pe phone par baat mat karna. Keep grinding on man, maybe, just maybe, one day the world will be so much less materialistic than before, and ill remember you then. ill be legit mad if you don't keep in touch, okay?

Tezan Sahu : Yo bro!!!! I still remember the first time we met during the Design Club sessions!! N how can I forget interesting chats that we had during the loooooong wait for pizzas during d Microsoft PPT :P Always stay as cheerful as u r bro!!! N keep motivating ur juniors :)

Aryan Agal : Yo Bidiboy! Har baar tujhe insult karke sorry bolta hun. You're super cool, but senti ho jaata hai baar baar. Epic banda hai, bas your brain has turned to mush in this year. Recupérate and stay connected. Kabhi kabhi tty pe bhi bol diya kar! You're a great dude!

Shashank Tomar : Heyy man! I'll always remember meeting you at Kurta Day, and you adopting me XD. You gave me itni saari invaluable advice and I really enjoyed our conversations. You're literally the most chill senior ever. Stay in touch!

Pranav Thakkar : It was always nice chilling with you (mostly in Piyush's wing xD). Random conversations always kept us entertained. Stay cool, buddy!

Animesh Singhal : I'll always cherish the deep discussions with you and the way you used to greet people! Trust me you have great interpersonal skills and never underestimate yourself on that front! I really appreciate your bat cave and the way you carry your enthusiasm! I would really look forward to more conversations and the overly productive version of you again!

Phuntsog Wangchuk : Did you really think I'd forget you this easily? TR8R.

Pavani Jeet Jignesh : First year me tune jo NSS speech di thi, laga tha bada GOD admi hai. Fir labs pe labs saath kiye, ab tujhe jitni gaali du utna kaam hai. But tere bina group me maza nahi hoti. Especially elec lab last day, when you had your EUREKA moment and Laxmi treat, jisme tu bilkul sober nahi tha. Thanks for all fun, and for being a consistent lab-mate. Tere bina labs kaise ho pati humari ;)

Madhur Sudarshan : It's always been a trip when I meet you. Have had some great discussions and insights learnt talking to you. Take care bro! Also we still have to launch that million subscriber wala youtube channel tho!

Ashi Gupta : Hi Bidish, I haven't listened to the song album yet. You are a very good orator. and your operations work in 7th sem lab..XD...Do you know we had a group named 'Without Bidish'.

Abhay Tomar : Let me just put this here "yo bro tera roll number 123 hai kya 😊. Bro Mera roll number 124 hai. Aur tje pata hai tera roll baap mere hi coaching se hai. Kaafi achche dost Hain mere." I have nothing more to say 😂.

Drish Mahnot : Bhai itna zyaada kaise pain le sakta hai tu? You used to somehow still always be chill! Pune was fun, now I see that we called you traitor but you were really the smartest amongst us xD We tried some epic new stuff in H2, if that's the last memory we have (hopefully not) I'll still be content :D Edit: Did you think Wangchuk would forget? Tr8r!

Arnav Dewan : One of the few weird and interesting characters I got to know here. You are live life to the fullest and it is amazing to see. You have made quite an impression on everyone and the things you have told me, makes me wanna respect you even more. I know senti doesn't work for you, so won't do it any further. Baaki I know you will tell me always with something so weird, extraordinary and out of the world! I know you are gonna do something pretty great!

Prakriti Mehta : Was fun knowing you, and also inke maze lene me kaafi maza aaya, those who know they know XD... and yeah kittens you had in your hostel were really cute, thanks for sparing time and searching for them just so that I could see them. We didn't have many memories, but koina, hoping the best for your life ahead :)

Bhadri Narayanan R : Hey Bidish! I can never know how you can with so much ease, go up and talk to anyone around you right from the first day of college. Thank you for introducing me to google calendar without which my life in college would've been a ridiculous mess. Be welcoming of everyone as you are and it'll take you heights!

Shubham Jain : Hi Bidish, "first impression is not always the last impression"-- Warden H-5. I remember that when we first interacted you were speaking of as if almighty is speaking himself. The way you communicate is really special. Also, you piece of advice during our hostel gym in second year were really helpful. Though we couldn't interact much, it was great to know a person like you. All the best and machate raho!!

Vardhil Mehta : Ghosh babu! Bhai, yad nahi apan kaise mile the (shayad Valay k through) but tere sath mene gym jana start kiya tha XD. Apne trip, treats pe to nahi gaye but apan ne bahut baatein aur discussions kiye h Led Zepp, Bob Dylan and what not :P! Tu chizon ko well-managed and apni method se karta h. Keep it up and all the best for your future!

Shreyas Pimpalgaonkar : A great friend, You're so much fun to talk to! I think we have a lot of catching up to do. Milte hai jald hi, love you loads <3

Piyush Gupta : Bidish Ghosh, what do I say. Thanks for being there, always? I will always miss 5/143 and 2/222 and the endless trips we have had. Patil ke saath experience. Chemical de apan dono ki maar li achche se. CoW mai bhi trip kr liye apan, mahajani and ambani ke naak ke neeche. Some really sick memories dude. <3 Theres a lot but ye time crunch ne watt laga di hai.

Kushal Mittal : Bidiboi! All thanks to abhyuday teri fattni kam huyi mujhse aur tune baat karna start ki :p Bro you are one heck of a chatterbox xD Bauhat mazaa aata hai tujhse baat karke, you always have something fun and interesting to say all the freaking time! Whenever i came to your room you had someone new sitting in your beanbag xD Dude how could you just walk up to someone and talk _/_ i need that confidence. Ab to mumbai mai hi rehna hai aur bauhat saari bakchodi aur karni hai :) Milte hai jald aur party karte hai <3

Sanjeet Sahoo : Bhai mere ek endsem ke time tu dedh ghanta apna dukh dard sunaya phone pe. If people wonder itna time dukh darad sunaya? Guys isse bahut zyada baar, bahut zyada time aur bahut zyada dukh darad suna hun mein Bidish ka. Tujhe sab karte dekh liya freshie year se logo design se leke parche tak, sab dekha hai. Tere life mein teen chiz excess mein hain bandi, exclusion aur nashe. I see this post turning out to be more of therapy and less yearbook. So yeah, in conclusion kabhi bhi chill maarne ya ra**dirone ke liye koi chahiye, toh apni mummy ko call kariyo mujhe nahin. Out of the box, meaningful, informative conversations. Cool guy. Would rate this person 11/10. Totally recommend.

Yagya Mundra : Thanks for teaching me a lot in my freshie year about designing. If you guys would not have been there, I would not have imagine ever trying all of these. Sometimes I miss those old sessions and the fun design club which it used to be in my freshie year.

Kireeti Akkunuri : I didn't appreciate you much earlier but that one moment when we were walking down the slope was when I realised you're a profoundly more empathetic person than I thought, and that is when I found a great friend in you. I look back to our CoW and Techno-comm days in nostalgia, that was when we had lots of fun working together the first time. And of course, the whole fourth year journey has been a revelation for both of us. I'm glad you are back in good spirits and I wish the best for you. Here's to an enlightening 4 years to say the least, Kireeti.

Rohit Banavath : Bidiboi... Thanks for being my wingman (for a night), all those overrated stories you explain of yours, your facepalm worthy humour and for crushing. And stop posting animal violence posts on social media... that's just grosssss.

Richa Agrawal : Hey Bidish! I remember you as the first B.Tech student I met who was so interested in design. It was nice to have conversations about orphans in paragraphs and justified vs left aligned text with you. It was lovely to know a fun guy like you. Best of luck for the future! :)

Thanks for setting all those trips XD. 3rd year tak to hardly humne interact kiya but final year me we left no stone unturned when it came to bakchodi, high hoke exam bhi de diya 🤪. Won't forget our Hi(gh) guys podcast and that time when Alexa screamed in a cat's voice(or was it a baby crying :p) Can't wait for the next adventure :p

Desai Darshil : Bidiboi! You were such an enthu cutlet in the first year trying anything and everything. Thank you for introducing me to amazing music, giving me awesome room decor tips and generally for being a great friend. Debating with you on random stuff and hanging out in your room were epic fun. You are an intelligent, creative and organised person and I wish you all the best for the future. Until next time bro :) PS- "The music stops and echoes on in sweet refrains, for every joy that passes, something beautiful remains."

Diwakar Yadav : Bidi boi! Bro sbse jyada PR wala banda, bandio k saath ghumnai wala banda (or should i add foreigners k saath). Sarthak Khandelwal : Bidish bro, of course I remember that code.fun.do with Dhruv! It was my first hackathon ever! It was really fun working with you in wncc and getting amused by the things you'd say or do! :P best of luck for everything in life man, stay in touch!

Arjav Shah : Hey Bidish! We've had quite a journey from being close in the first year to reduced interaction in the later years. Hope this changes for the years to follow...I will never forget the way you almost convinced me to buy a Surface Pro in my room and we've had some great discussions that I'll cherish. Remember the 1st year summers when I stayed next to you in Watty's room? Also the heated exchanges we had on FB after which you got to know someone I never introduced you to xD? :P Stay the same entertaining person you are and looking forward to getting back in good touch soon! Best wishes & take care, mate! ChEers!

Ishan Tarunesh : Yo Bidish, I blame you for not taking the initiative to plan things lol. Itni baar H2 mein dikh jaate ho koi na koi reason se. I hope you are doing okay compared to second/third year. All the best for future !!

Rohan Kaushik : Lol yeah man, freshie year was an interesting time. Also, freshie Bidish couldn't be more different from what you are now - from forcing you to come to sunny in the first year, all the way to that diet coke night lol. And yeah man, lez do a PF sesh soon. All the best and keep on smiling!

Saman Siddiqui : Bidish, You're one of the strongest people that I have met. I remember that day outside the lch when I'd gotten the lab result and you'd gotten the process eco result and you spent that time consoling me! ♥ Not just strength and resilience, you also posses this incredible ability to perceive emotions and intentions. Far too many times, the things you've told me about myself and others have come true and that's made me value your words ♥ Know that I will never stop asking you for advice, because I'll never stop believing in you and your greatness! You deserve all the happiness and knowledge in the world (I know you believe that's an impossible combination, but I hope you find a way)
