Yearbook
2020

Abhinav Jain : Ahoy Athul, We didn't spend a lot of time together out of work times, but you have been a source of motivation for me yet... from the very day when you explained why I should go for Astro Secy to the times of Inter IIT Tech, you have been that person who always knows how things work and one should act upon them. Your in-depth knowledge about mechanical courses always fascinated me and encouraged me to look towards my courses with a positive attitude. Thanks for all the advice and the suggestions and best of luck for the journey ahead!

Aniruddha Ravindra Ranade : I think we became friends on a very unusual note - during the tough times of Sept-Oct 2018. I understood your philosophy and I was surprised to learn how similar our thoughts were - from Inter IIT Tech Meets to engineering in general. The kind of efforts you have shown - at both, tech and acads, is commendable. I am glad to have met you and discovered a friend in you. I am sure that we will stay in touch.

Yash Samriya : Sir! Sir! I remember we first met when I came to you for convener groundwork! Since then our friendship has seen some ups and downs. It was a privilege working along with you during our stint in ITC 2018-19. There are definitely loads to learn from you! The intellectual and philosophical (sometimes a little too philosophical maybe!) discussions we had were amazing and your quick understanding of the fundamental problems with solutions to everything always in hand was really impressive! Thanks for all the support in those troubling times during the tenure! Stay in touch! :)

Aryan Agal : You're a real hardworker, and love your intellectual conversations. Whatever has been bothering you this last sem, I hope you resolve it soon. You can surely ping me anytime! You radiate maturity and knowledge. All the best for your future! PS: If you play your cards right, staying unfazed in the face of adversity can be your superpower.

Santnam Bakshi : We first met up in the AUV team in first year. Luckily we kept in touch after I left the team. I have had nice and honest discussions with view on many things. Will definitely miss hanging out in the future.

Aashay Biyani : Athul!!! I realized that you were from south India because of that h in your name. Jokes apart, you've been very fun senior and mentor. Helping me every time I called you, and dealing with me very calmly when I was extremely rude, you've taught me a lot of things. And now comes the fun part. Remember your key chain :p. Still I laugh at the sight of you searching the roads that lead to sunny to look for your key chain (with keys), only because I said that I saw them there. I still have those hand made stamp of yours that read (STAB). Would keep them to remind me of all good memories of Inter IIT Tech Meet. And will miss you and your comments on how kanjus I am.

Kartik Bilolikar : Yo, Athul bro! I always look up to your diligent attitude towards doing things. You are one of the very few people with whom I have been able to connect on a deeper level. Your company has been really great for me right from getting acquainted as MSI-AUV neighbours, to netflix movie watches (mostly Rom-Com :P), to thrilling baddy matches, and late night H-18 rooftop rants :D. I know ki tu aage bhi life mein bahot machane wala hai, but please continue to be the amazingly dependable person that you are!

Shobhna Misra : Yo! It's been a hell of a ride. Starting from knowing you as an Aero club convener to working with you, I have learnt a lot. I could get through my GS tenure only because of the things you taught me. Thank you very much for that, and stay in touch!

Abhisek Sahu : Yo Athul! I have had great experiences both on and off ITC work. You always brought a well thought out pragmatic stance to any discussion, even the philosophical ones. And I admire that a lot about you. You always worked on stuff with laser sharp focus and very high determination. And need I say that you managed your tenure as G.sec so well! You definitely taught me a few things about leadership and I'll always keep them in mind. All the best for all your future endeavours! I know you will do great things. I might have to come to your fortune 500 company seeking funding for my research 😊. Peace be with you ☺

Ananay Garg : Yo Athul ! Not going to lie, first year mein aap kaafi intimidating senior the. Meri toh g*and phati thi. par usi mein maza bhi tha. Apne kaafi saari directions mein directionless kiya. But woh sab baadme samajh aaya. jab hum team mein leader bane tab samajh aaya - tab aap hi ke pass aaya. Kaafi deceptive insaan, ho aap. Aisa lagta nahi tha you cared about juniors a lot, par aisa kuch nahi tha. Aap hi ka masjid ka doc use hai shayad freshies ke liye. :p Aapke liye kaafi respect hai aur rahegi, athul.

Harsh Chandak : Yo Athul bro! We really had lots of fun in Bangalore. Intern pey kaam se jyaada toh maine khela hi tha xD. Humne Surat mey bhi kaafi maje kiye they. Tujhe cheezo ka kaafi jyaada knowledge hai, hatsoff to you. All the best for future. I know ki tu kaafi aage jayega life mey :)

Shashank Verma : My Boiiiiiiiiiii,
Athulaaaaaaaaaaaaaaaaaaaaaaaaaaaaaaaaaaaaa. I remember our trip to your home, loved it. I miss all those dishes (can't remember the name). Tu kaafi machau hai, bas thoda zayada rota hai tu aur kuch nahi. Don't worry all your secrets :p and memories will remain with me. And some day we will laugh together in your CEO office. Tab tak bhul mat jaana mujhe. Athul, you taught me alot of valuable things in life. Thanks bey... Stay in touch, machate rahena.

Anant Taraniya : To akhir aap jaa rahe ho Athula! Gyan ki batein achi krte the aap team mei jab tak the, you and Pandey made me the visionary i hope i was for the team. Fluids chhodke ab heat transfer ki taraf muh mod liya hai, dekhte hai kaha rukte hai. Kill switch patent ho jate to vo mehnat misaal ban jati, but anyways maza aaya seekhne mei

Shantanu Thada : Athul, first of all I am really glad to know such a level-headed and born leader in my insti-life. The amount of practical mech knowledge you have is something we all aspire for!!! Your enthusiasm for your goals can only be surpassed by your generosity with your friends! We have gone through the placement process only coming out stronger together! I will always cherish those experiences. Stay in touch man! Looking forward to catching up really soon!!!!

Sudarsanan Rajasekaran : Yo Athul. Haven't seen a more helpful and knowledgeable person. Even while having so many work you were always helpful and approachable. Your ideas and planning is really awesome. It was really a fun knowing you in AUV and also in the Terrace Farming project. After discussing with you ek naya josh and inspiration milta hai. You are so friendly and helping... enjoyed those long discussions near H18 and also your guidance during the placements. Have learnt so much from you and there is even a lot more to learn from you. All the best.. aage bhi machate rahna...

Fatima Salehbhai : Yo message Kar ye dekhe toh :p Bye. Kabhi toh milenge pakka
