Mukul Jangid : Kanishk bhaiya aap toh humari ICC ke nazar ke teeke the 😊. Bhai tere bina mein saari meets kaise jhel paata. Woh Sunny aur apna dhaba mein bhand hoke kya maje karaye hai tune. Saala jab mera aadha course khatam hota tha tab tu padhna start karta tha phir bhi phod deta tha, alag level talent hai. Elections se pehle jo tum OAT mein milne aaye the woh toh epic hi tha 🤩. Bohot sahi fun banda hai tu 🍀. Aise hi game suggestions aur editing tips maangta rahunga zindagi bhar mein tujhse. Milte rehna!

Adithya Iyer : Too many stories can come out of Semex. Norreport ke McDonalds ke washroom ka scene toh mai nahi bhul sakta. Add to that 9496(still a secret to a particular individual ;)), MasterCard, that cologne wali train, berlin ke lights and the whole flight booking optimisation. Kaafi sahi banda hai re tu, keep in touch. PS : 'ab toh ho gaya ab kya kar sakte hai' ke liye sorry XD

Pragun Badhan : Kans Bihari! Inter IIT ka apna forecast was so epic-ly true, vo sheet bahar aayi toh log aur naraaz ho jayenge xD. Film making and nashe karte kaafi achi dost ban gaye. Saste kaam karna chod de vfx se. Filmfest ki hangings will be my most lasting impact insti ko, cause koi utarne ki mehnat nahi karega unhe xD. You're a great guy with decision making abilities and a creative brain which I've always admired. Thanks or all the fun and the memories. All the best for your future! To more Zoomcar and Merwans! <3

Anirudh Singhal : Yoo Nashedii! Wouldn't have even 1% of the good photos I have from semex if it not for you xD. Bc tune Culture waalon ka mera perception change kar diya! Had lots of fun with you on semex. Aage machate rehna and kam nashe kiya kar bsdk xD

Vikramaditya Patil : Yo Kanishk, In the first year when I saw your H7 Rove freshiezza video, I was so impressed with the effects, I could not believe someone in the first year could do it. From that to the Dopamine trailer, over the years you have only gotten better and better. During Inter IIT at Roorkee I was sad that we couldn't do the winter post-apocalyptic script, but Mohit and you rightly convinced me that it couldn't be done then. And Pragun and you made the right call. I remember the cold night we spent writing Fortunate's screenplay while Khoker sat with us through the night. I really wish we could have made something in the final year. Let's keep in touch, and all the best!
