Yash Samriya : My "Elec Minor" buddy and an awesome wingmate! I still don't believe how did we ever manage to scrape a minor in Electrical Engineering! From the first draconian Analog Circuits to the final course, our ranting and crying have remained constant! Stay connected! :)

Mudita Rana : Group me sabse zyaada kaam karne wala Banda 💖💖 Labs were a lot of fun with you and rathi around. I got to know y'all so much better in the process too! Itni baar hota tha ki kaam kuch bacha hai and you'd say "haa Mai Kar lunga" "haan ho jayega" 😭😭 saare plots tujhe by default assign kardiya jaata tha 😂😂 Tere saath lab me rathi ke mazze lene me infi timepass hojaata tha :p thanks for not letting me climb up in that drying experiment 😂 study room bakchodi toh I'll always remember. stay in touch 😊
