Anmol Gupta : Kya haal hain sir? Life mein aapke baare mein kuch bhi bhul jaun, kabhi group wala nickname nahi bhoolunga XD. Aur na hi apne DDP guide ka itna pyaara 'bubbly' description :P Tujhse zyada busy insaan nahi dekha hoga maine DDs mein - final year mein itna kaam kaun karta hai?! Case Team Meets were super fun lol - Red foxes to Amazon Rainforests, oh and of course, the beginning of it all - Drug Mafia HAHAHA! Tik-tok video pukka se bana lena!

Shubhankar Mihir Seth : It took me a year to appreciate why you're called FacAd - you have a perfect solution to any problem under the Sun. I've known you for just over a year but there's so much we've done together - from interviews to dealing with people in Main Building, and your placements to my emo drama. But you've been nothing less than an inspiration through it all, and I really admire how you maintain your composure even when shit is going down and how you're always fighting to do the right and fair thing, even when it's super costly. Anyway, here's to making fun of your DDP rona-dhona, Mrunmayi's zzz and my technological handicap! Aapka prom toh nahi karwa paaye, par gold medal zarur dilwayenge. Cheers!

Aditya Chalishazar : We have probably interacted few times waiting in the Dean's Office and most of our discussions were always around how weirdly our project trajectories were going. But the Senate meetings and LP-92 meetings were quite interesting. All the best for whatever is to come! Btw, wo ek proposal pending hi rakhte hain... :)

Ritesh Kumar : F.A.C.A.D _/_. Goa was fun, 2nd badi trip reh gayi apni. Kar lenge kabhi to time nikaal ke :). Thanks for anytime serving the drugs: legendary Indori shev, bohot thusa hai maine. Shev khaate khaate infi jugding and bitching kari hai humne xD (Bate ki sabse jyada, then comes Khari, then rest Elec). Om ke civilized nature pe bhi bohot pain diya humne usse. Kuch deep conversation bhi hue hain hamare, achha laga. Bohot faaltu ka roya bhi he tune. Placement days me bohot help kari, can't thank you enough <3. Btw, you would never be able to thank me enough for always joining you for basketball whenever you needed someone to go with. Ok bye BUSY LOG.

Akash Sharma : Hey sarthak ..Thanks for always being there ..To listen out me .Giving ur ample time to all my silly queries ..Kaafi calm & composed rehte aap har situation me (quality one should take from u) .All the best for future ..PS: Team treat abhi bhi nii hui 😊

Devyani Verma : Hello Sarthak! You're such a down to earth guy and it's always so easy to talk to you! I hope (and I know) you're going to achieve great heights in life! Thank you for giving me courage to actually even consider changing my guide and thank you for always being so approachable. You deserve all the happiness in the world and so much more. I hope we keep meeting each other sometime. I have always enjoyed cribbing about elec with you, ranting about kya jeevan hai yaar and generic bitching about people (yeah, it came as a shock to me first that you actually do bitch about people xD) All the very best for everything that is in store for you ahead and uncle aunty ko hi bolna mera :)

To start with thanks for not killing me during interviews :P And also to all the times I have pestered you with doubts and you so patiently answered to each one! Meeting you for the first time I had no clue how much machau and fun you were...you are always so composed and formal! Gonna fit in quite well in your new machau job! Ayush Ambadas Dahale : Wow, it's been two years of mentoring and still feels like we met yesterday, cause ever time we meet you, you inspire us to be better of our self, every time we meet, we can't stop admiring you more. Thanks for being part of our insti life, writing this on behalf of our wing, to the best mentor ever

Hetvee Marviya : Hey, you are someone I really look upto (literally also because of my height 😄) but sachi, from having things organised so that they run as clockwork to being able to thinking rationally even when everything seems to be jumbled up. Thankyou for putting up with us and our infi queries! Your hardwork and dedication leaves me amazed. We know its time to sleep when we see you start your day at 5 in the morning xD (Lets hope the valfi plan actually gets executed.) Even in the little time that we have interacted, there is a lot I got to learn from you and I hope to keep on doing so! All the best for ahead! :)

Sumukh Vaidya : Boss man! Kaafi respect for your epic gaming and diet management skills :P I'm glad our paths crossed this way, I got to interact with such a focused and hardworking guy. Thanks for the mess chitchat and nice conversations. Do great ahead and rise to the top :P. BTW PhD hi kar raha hu finally XD

Parag Mundhada : Hey! I haven't seen someone as organised and formal as you are. I really look up to you for all the handwork and dedication that you put in your work as well as how structured your thinking is. I really wish, I could have got to know you better and get more fundaes from you. I hope I get to attend the planned valfi of yours. I have definitely learned a lot from you during this short spam of time and I hope I keep on learning more things from you. All the best for your future and keep in touch

Anusha Dubey : SarKar ke Prime Minister! Really respect how you've managed so many things altogether and still remain so calm all the time! I wish aapka SMP trip ka sapna pura hota, but hopefully we will be able to pull out an outing together, some day :) Loads of wishes for your future and keep in touch :D

Sachit Mehrotra : Thanks for helping people like me survive elec with the occasional help through the years. Tere muh se hi dikh jaata hai k mere doubts downright ghatiya aur trivial hote hai when it comes to Elec/Coding, but yaar tune aaj tak nai bola kuch hamesha solve karke diya hai. 1-2 sem saath mei courses bi kiye, tab dikha k aapko mediocrity nai chalti. I got annoyed during group projects kyuki hum toh bare minimum pe hi engineering nikaalne ki philosophy pe chalte aaye hai! Bina padhe 6-7 aa sakti hai toh padhke kaahe ko 9-10 k liye maatha fodo. Aapko mediocre hona bilkul pasand hi nai hai, perfect hona chahiye kaam. I'd be very surprised if you don't make it big out there in the world bro.

Rohan Pathak : Sirji _/_ Aise Kaise CS se CS mein jaake fir gol ghumke non core mein gaye and then teeno jagah fod diya :p Jaha bhi jaoge, aise hi pelke aoge ka example ho aap. Mai legit tereko 2nd year mein dekhke tere jaisa banne ki try karta tha. If you remember ki mai tere paas aake sab kuch puchte rehta tha, teri way of thinking samajne ki try karte rehta tha. Kyuki tab se hi pata chal gaya tha fodu ho aap :) Your biggest quality is learning from your mistakes. Ye tujhse hi sikha mai. I hope aage bhi ghumte firte rahe apan and pelte rahenge :) Though I have understood that jitna tu bolta hai, uska minimum 10x fodke aata hai haha (CFA being the example xD, Rotlu kahika :p)

Kushagra Kacholia : Arey sir, I first met you in a huge hoarding at Chappan, so it wasn't really that bad :P The in person interaction could have been a lot worse, had your face not looked like on the verge of laughter through out the whole interview. You've been a role model on how to manage time effectively by planning stuff and more so, succeeding in all of them :) (The whiteboard is a testimony to that) You've been a great leader, an amazing case prep buddy and a true friend- always humble and ready to help. I've always seen you being all calm and composed, hope to see the Indori side as well, preferably over Pohe jalebi at Chappan or drinks. Stay in touch and all the very best, Mr. Perfect!! :)

Ritwik Khandelwal : Hi Sarthak, I sincerely want to thank you for all your guidance right from my first year. I'm inspired by your down to earth and practical nature, tbh I will be missing you from next semester as you leave the insti. I can't thank you enough for taking my calls even at the oddest hours for trivial and also for the treats 😊 Have a wonderful adventure ahead 😊

Neeraj Sohani : Third standard to fifth year. Quite a journey together bey. Never thought ki I'll share this with you but I'm glad I did. From you outright ignoring me (those messenger chats are a testament to what a jerk you were :P) to getting pretty close over your guitar fever (sorry for breaking it so much) in our final year we've come a long way. I can't describe how thankful I am for the way that you've grown throughout insti. I hope we get to meet and go to Jimmi's once more for that Hazelnut milkshake xD Also, Kshitij k saath gullu me baith k banaya hua plan poora karte hain! Stay happy and stay blessed brother <3

Ritik Madan : I always thought you were that cool yet nerdy maggu who literally aces every subject he wants to. And you did not disappoint me a bit when we started interacting during the placements. I've heard so many amazing things about you and I hope gradually I'll get to know you better and learn a few of those good things at least. But btw tune mujhse and Sanket se seekha bhi toh hamara DDP me kaam na karna? I hope Appaiah treats you well tho, pray for us as well :P. Jaldi milte hai agar Bain ne aur BT nahi di toh XD
