Yearbook
2020

Kale Ninad Naresh : bro freshie year ka summer i dont think tujhe need hai yaad dilane ki. Giveup ka actual matlab kya hota hai tab sikha tha hamne. 7 baar BMS board banaya, 3-4 Baar pura elec stack assemble kiya, infinite multiple days nighouts.. bro i srsly dont think utna stress mene abtak liya hai life me. It was fun being around u. Tere marathi savage replies next level hote the. Best of luck for ur future man

Shubham Tiwari : We only met once or twice in our life. But, that meet was the turning point of my life. Thank you for selecting me for the team. I don't know much about the story (you just wrote "Iron Man" in my column) but seniors told me that, I was the only person selected by you for elec, and you were a lot confident in taking me to the team. Thank you for that honor. I hope, I didn't fail on your expectation... In the last 2 years in team, I realized, what my hobbies and dreams were, that were long lost during growing up and during JEE. Finally I have a little bit of clarity on what I want to do in my life. All thanks to you. You provided the path to discover myself. All the best for your life ahead :

Sudarsanan Rajasekaran : Yo Viraj. It was really nice knowing you. You are so sincere and hardworking. Those freshie year ke summer ke testing.. you and Ninad would do infinite nightouts and still in the morning we would call you to debug the stack. Your idea of breaking ice with jokes was unique :) It was awesome having you in team. Bhai kitna tez cycle chalata hai tu and your swimming style was really epic. All the best for all your future endeavors... milte rahenge aage bhi...
