Pankaj Kumar Sahu : Hi Malli Bhai! It was a great time for me when we were in continuous touch throughout the first year. We also used to study in the Lab. We talked to each other many times in the lab. your Nature and behavior are extremely good. Aapka Running k liy jo ek Junoon hai woh bhut hi Incredible hai ekdm high level ka junoon hai aap me Running k liye. Apart from that sometimes we also played badminton in H4. We enjoyed birth days parties as well. You are a very very Mature person. Your Communication skills are also great. Hum sabhi n "Together we learn" Program k tahat jo ki Praneeth n start kiya tha usm bhut enjoy kiya , kaafi kuch seekha hum sabhi ne. Take care. Be in touch. Thank you Malli Bhai..

Vartika Singh : Hi Malli, the athelete, you are an inspiration to all 😊. I have special connection with you as my first beer was stolen from your glass (do you remember?)😂😂. And after my accident, you said I shouldn't be worried about scars, these are victory marks (bahut log ko ye wisdom impart kia maine 😊), thank you, it helped. And there were many small moments, and I wanna ask, how are you so respectful, calm, disciplined , focussed (and a detective 😊). Keep shining 😊

Jaideep Singh : You have been an inspiration for a lot of us. I used to be so afraid of sleeping during lectures or in lab, but seeing you, i was really inspired. And there's no way i would get inspired to run as much as you do, that is superhuman. Your dedication level for things is just superhuman, there's no catching up to it. I remember you helped in one of first scilab programs. Ever since my lab was totally dependent on you, so thanks for that. And you have been a great sport. Thank you.
