Savaliya Nikitkumar Mansukhbhai : You are always taking a nap when I call you or I need your help. It is the best to have a friend on whom one can yell at any time any where and that also without no reason. You are my that best friend. I have never seen you angry even after I shout at you without no reasons. You have a great character and personality. I am lucky to have a friend like you. But you are always stressed at every occasion, be it exam, be it MTP or be it placement preparation or talking to HR. Overall you are a great person with kind nature. Wishing you all the best for your future. Don't forget us after reaching a top position in Mahindra.
