Sumukh Vaidya : We spent quite a lot of time taking interviews and doing random bakchodi. I had a lot of fun, and it was great seeing a really sorted person with all priorities set and done. You're a genuinely nice and sweet guy, stay that way! Get onto the corporate train, and rush ahead in your life. Best wishes!!!!

Ayush Puri : The go to person for all the problems, be it acads or life fundae. Bahut broad perspective hai bhai tumhara har cheez ke liye, isse kabhi mat change karna. Tere jitna lamba post nahi likh paunga. Bas yehi kehna hai ki vo lakshmi ki parties , vo naturals ki icecreams aur vo lambhi batkai bahut yaad aayengi.

Ritik Bilala : Kushagra, I always see a genuine person in you. You are among those few people who enjoyed insti life as well as utilised it to grow in all dimensions (all round-development). Your responses to people are very humble, caring and still to-the-point. Wish you a very good future!!!!!!

Vatsal Khetan : I'll miss the worldly talks we used to have in the mess. Those philosophical talks about how everything is pointless. Also Truman show dekha ki nahi?

Kushal Agarwal : Kushagra!!! Apan ne insti life shuru kiya tha ek hi lab group mein and ab khatam bhi karenge ek hi company mein. Har exam ke pehle, "Bhai kuch nahi ata" bolna and Lab group mein baithke gossip karna. Ab bas ek hi jagah posting aaye aur sath mein milke ghar khareedenge :p

Shantanu Thada : Yo Kushagraaaa! Infi machau DAMP Co. and Day 0 pe hi PnG craxx karne wala launda! Yes, serious groups pe random bakar kaatne se lekar random gossip tak, these moments will never be forgotten. But Indoris ke beech ye bonding toh honi hi thi!! <3 I wish you the best best best for all your upcoming endeavours and haan, lockdown khulne ke baad Pohe khaane Chhappan chalte hai <3

Bohra Ankit Narendra : Kushagra, I've known you for a couple of years now and there is no doubt in saying that you are a very humble and a hardworking person. The tension during placements, the serious talks and jokes to calm us down during placements are somethings that I'll always remember. You have been an amazing leader as well. All the Best for future!!!

Akash Sharma : hardwork....dedication...smartness ka acha khasa package hai khushagra apna ..we spent a lot of time during interviews & had lots of funny moments Be in touch bro

Animesh Singhal : Internship mein aur kuch kamaya ya nahi, 2 awesome dost zarur kamaye. From being complete strangers before the internship season to ending up preparing for placements together, it has been a hell of a journey :) I literally cannot think of anyone more hardworking than you and you've been a source of inspiration for me. The way you used to chase your goals has always amazed me. Cheers to all the fun and deep conversations we've had! Even tough tujhe gaaon mein jaake kaam karna hai, jab kabhi bhi phone ka network aaye, mujhe aur corporate boi ko ek phone zarur kar dena :p Ye chaos khatam karne ke baad ek dhamake daar party karte hain, Anshul fund toh kar hi dega :P

Shubham Anand Jain : Hey Kushagra! It was great to get to know you, albeit only in your last year. I hope we can continue to be in touch, and cheers to you staying as awesome as you are!

Anshul Sambher : Kushagra sir!! Aapke saath insti main jitna bhi time spend kiya hamesha yaad rakhunga! PwC ki internship, Mech Toli, running, foosball, TT ... List endless hai bhai 😊 Yeh saari memories aage kaafi yaad aayengi aur inhe cherish karenge bro. Office jaate hue cab main jo gyaan baanta tha wo hamesha yaad rahega ;) Thanks to you only maine tv series dekhna shuru kiya (Black Mirror kaafi epic start thi 😊) Teri placements ke taraf dedication mere liye ek inspiration ki tarah thi. Would always remember you bro for the days to come aur PnG life ke liye all the best!!

Sahil Shah : Our interactions have mainly been limited to trips - Dehradun in the first year and Hyderabad in the last, but its always been fun, especially when there are drinks around! I have seen you stressed and worried about life, then overcoming obstacles and finally partying like there is literally no tomorrow. I am sure life will have much more of the partying and less of the worrying in the future. All the best!

Mrunmayi Mungekar : Sirrr! I really can't start this any another way than how are every convo starts - "Dudeee how tall are youuu?!!!" We had so less interactions but it was so so easy to talk to you like whenever we met at events and even in boringgg classes (well, apart from again, you being so tall!) Always calm and smiling and padhaku...and so so machau - much woww! - bas yuhi machate rehna sir!

Yash T Rajan : Kushagra, you are that kind of person jiske saath meri koi single badi memory nahi hai, but our friendship and mutual respect for each other is a result of many many moments, jinka collage is something which will be precious to me always. Throughout my insti life, I have seen you working hard and tirelessly, to grab every opportunity that has come to you. An amazing team leader in the making. You might not know this, par Dec 1 ko jab blog par first updates aaye the, to my first thought was, 'Dekhte Kushagra sir kidhar machaaye hain<3' . All the best for your future endeavours, and hope ki insti ke baad jab bhi milen, tab bhi "Are Sir...." se hi conversation start karen<3

Swadha Sanghvi : Yo enthu partner!! I will miss the traditional day pic next year! It's been hell of a journey dude! Let's get our last outing done right in Indore. I won't forget how difficult is to talk to you while walking (because you are too tall) and how you used to make fun of my small shoe size (logo ke chhote feet bhi hote hai accept it!!!)

Ritwik Sudesh Kadu : Aap haamre DAMP-co ho aur H3 ke ho ; bas itna hi pata tha aapke baremein. Randomly ping karta tha aapko mech relevant chats ke liye, aage bhi karta rahunga :P .Bahot hi late mile ham(winters I think). Even though Zakir kata ; will be always grateful for that line jiske vajehse conversation initiate hua. Aisehi fundae dete rehna. I wish pehle se jaanta aapko. All the best!

Maitrey Gramopadhye : Yo Bro!! Infi enthu and energetic insan hai tu. Humesha aise hi rehna. Although first sem ke bad hum infrequently milte the, kabhi catch up karne mai time nahi lagta tere sath. And tere sath gossip karne mai humesha bada maza ata tha. Touch mai rehna. Also, bro ek bar aur peene chalte hai yar sath mai! XD

Ameya Mittal : Hi wingie :P You have been and will always be an amazing senior for me. Jitne tips aapne diye hai jaane anjaane mein, utne baaki insti ne combined nahi diye hai. Loved you for your approachability and it was fun being a part of your mentor team! Wish you all the success in your future without your Baheti :P

Watan Kumar Meena : kushagra broo. insti ki har lab maine tere sath hi complete kari h ED lab yad rahegi jab apan dono hi password bhool gaye the. har lab me tu sabse pehle exp complete karke sbki help krta tha thanks for helping me with lab exp, viva , lab endsem . milte rehenge , touch me rehena bro

Anupradiksha Rajan : Tu kafi jyada hardworking hai yaar, aur helping bhi. Tune as a dampc bhi aur as a friend bhi kafi help Kiya hai mera, although tune dampc ke interview me to liya tha. Tere se har exam ke pehle papers puchna aur mentees ke har doubt pe, get back to you bolke, tujhe pareshan karti thi. Tera height bhi yaad hai mujhe 6'4. Sheshadri sir ka favourite bachha 😊, mujhe padna achha nahi lagta bolke 10 spi lane wale bade log, aage bhi aise hi machate reh!!!! All the Best!!!

Rahul Agrawal : Aur be 'aashiq', bhai bangya tu. Kafi memories hai apni saath me, ramesh sir ke papers, labs, tera answer laane ka tareeke :P, 'that' laxmi outing, tera jannu ko gaali dena :P. 'Alag tangent' pe rahi hai apni choices xD. Still, I will cherish all of it. Tere DAMPC work ke kisse sunke hasa hu kafi (bcoz of you know who :P). Tbh, I am amazed by the combo of your inner child and the dedicated adult you'll be. Netflix dene ka laakh laakh shukriya, hamesha dete rehna (US me mehnga hai xD), jab jyada paise kama le to earphones gift krdena bhai xD. Vaise sun, gullu chalega? :P. Paneer khayenge! Tu chahe PM ban ja, tera nick ***** God rhega :P. Teri shadi me kholunga baki poll :)). US aaja be! :))

Shubhankar Mihir Seth : KK boss, can't even imagine what insti life would've been without you! I'm so glad Abhi introduced us in the workshop, and that we've never looked back since. From your love for integration to my fear of it, and from heartbreaks to booz, I think we've seen it all. So many amazing trips - Doon, Goa, Andaman and Hyderabad - thank you for being the constant! I've always admired how you go after the things you want with such tenacity, and I hope you keep doing that. Here's to helping each other complete a degree we had literally 0 interest in, the uncountable trips to Laxmi, and leaving each exam hall an hour early. I hope you see symmetric mountains and moving half-ellipses wherever you go!

Anumay Ashish : Yo sir, so finally 4 years coming to an end. I believe in 4 saalmein apan ne har course mein har kuch karke dekha hai, chahe woh ME102 ke assignments ho, ED ke ek saath baithke sunday wale sessions, exams ke just pehle trying to mug up, or even third year ke struggle with adams. What i would seriously miss is that we did not have that much fun insti ke bahar, but i think we compensated for them in semesters... All the best sir

R Sucheta : I still remember that DAMP training after which we got too bored and started discussing about internships, insti gossip, PoRs first conversation me hi. :P You've been a great DAMPCO, single handedly managed so many interviews and such a huge dept, respect for that! You are a very talkative (chill, in a good way :P), funny, sweet and wise person who makes me feel guilty for watching TV series. :3 Anyway, all the best and keep taunting me for not working on my DDP :p Lets talk after 2 weeks :P

Nishant Jannu : I think we gave the rest of the wing wrong signals- from sexting each other from our beds to giving each other a GPL irrespective of whose birthday it was. Life has changed since first year- you've moved on to tinder (thankfully?), and gpl nights have give way to drunken nights. I'll forever cherish those moments when Baheti, you and I have laughed away all our stress with Janani jokes. I'll miss toying with your OCD, moving your stuff when you're lost in your phone. You've taught me to become a better person- learning to be there for a friend through tough times as well (tho in a dramatic way :P). I hope we can catch up soon at another airport beer cafe but without an uncalled-for alumni.

Bhuyashi Deka : One of my very first friend in freshie year... XLR8 ke liye kya awesome last minute jugaad kiya tha humne. Salsa night was also fun thanks to you :P. But the most fun I've had was when we had those deep conversations. Beech mein touch chhoot gaya tha but I am glad we reconnected. Machaata toh tu hai hai, aage bhi machayega. Bas jaayega toh milte huye jaana <3

Cherub Kapoor : Gardan dard ho gayi aapki taraf sarr utha ke dekh dekh ke xD Aapko fundon ke naam pe itna pareshaan kiya hai maine mere har stage of insti life mein, and aap hamesha happily support kiye itna. I'm super thankful for your presence! You are a super mentor and an amaze human ^_ ^

Anusha Dubey : Kushagra, your super sincere and disciplined attitude with a pinch of Indoriness has always impressed me. I remember our deep conversations from the time of interviews, and how much we related with each other's opinions. You've all the talent to get super successful in life, so go and slay it! All the best :)

Sarthak Nijhawan : Sir, I am just a little bummed out that we couldn't meet any earlier than this & EVEN MORE about how we ended up meeting for the first time (hope u'd've forgiven me for that :P). I am, syrsly, lucky & fortunate to have met u. U're a true & genuine Indori at heart :D. I really admire u for ur authenticity, drive & tenacity toward ur goal. Every day that went by, I've drawn more inspiration from u (u know how lax I could get at times :P). Well, heard a lot about ur stories from SMS, & am patiently waiting to experience 'em sometime with both of u over drinks :P. Hope we'll see more of each other in the future. Stay in touch. Sarafa/56 wagherah challe bhiya ab kisi din? Lookin forward to that :P

Sanket Agrawal : Hi Kushagra! It was fun knowing a great person like you. I have seen you working with all the dedication and determination from my own eyes and I cannot just say how proud I am to have seen you come all this way up. Lately we haven't really talked and I would like that to discontinue. So as soon as we are back. let's catch up and have some great time? :) Also, apologies for that time when you needed me and I wasn't really there for you. All the best and stay in touch!

Suchit Sharma : Yo Kushagra... vaise jaise mentoring saathme hui aise yeh bhi saathme likhna chahiye tha aapke and Shubhankar ke liye :P.... Yaaar aapko pata hai aap bohot zyada sweet ho and isliye hi prom ke liye achi bandi dhundh raha tha aapke liye taaki jo bandi ho usko aapke saath dance ka mauka mile.
