Atharva Jaipurkar : Nishiteeee! Bhai infi mazze kiye hai ASME ke time! Undoubtedly the best days of my insti life! Kya poses me sota tha bhai tu😂 US me bahot feel aai thi yaar sath me, really! Apna utna contact nahi raha 2nd year ke baad, par pehle ki hi yaadein bahot saari hai♥ Manik ka dudu, pravin ki don wali photos, goru ka i am cuming wala msg😂 Kabhi milte hai sab ASME wale pakke se! Baki tu toh acha hi karega life me, contact me rehna😊 Take care man!

Nikunj Mohota : Waking up for classes, lab assignments, teaching me an hour before the test and brainstorming Film GCs, idk civil kaise nikalta without all that! We went from betting money on our attendance to almost bunking the next semester. Keep tinkering, binging animes and consuming content as always!

Ishan Tarunesh : Nishit I admire the fact that you can sit with one thing for so many hours until it's complete or solved be it coding or video editing or watching F1 race / dudeperfect videos. I can never match your tech savvyness. Your room was my goto place whenever I was bored, I will always cherish the constant "Yo Isaan" with which I was welcomed. Tumhare arguments best hote hain, aur kabhi bhi unka purpose doosre par personal attack karna nahi hota isliye I like discussing random things with you. PS - I will miss random canteen jana a lot

Ashutosh Kumar : You were my constant for "Chalo bahar khane chalte", always ready-no venue pains no budget pains😂 But sadly half of those plans never converted😞 I guess Aayush ki random arguments😂 hum dono ne hi sabse jyada suni hogi😂 But yes, all these 4 years we have grown hearing your arguments and life-lessons. Your way of criticism, always used to push us to achieve the best♥. Your enthu to do things and the dedication! Pure din random videos and anime and then making your nights super-efficient. You have always been there for us, Thank You for your support in everything. Once this time ends let finish up with all our treats and trips♥

Mahajan Devavrat Shailesh : Duniya ke koi bhi tatti topic pe accha argument sunna ho to tere pas aana chahiye and vice versa. Chaaro sal tere se accha contact rakhna pada aur jindagi me kafi pareshan ho gaya :P par at the end of it all, wohi pareshan hona kafi jyada miss karra hu. bhale hi virtually wohi philosophical, technical, and entertaining discussions chalu rahegi, really hoping to have them face to face soon!

Aayush Anurag : “Kitna sota hai r**di” <3. Everytime you’ve said this, you’ve managed to make me laugh & motivated to sit & then waste time 😊. Srsly bhai, tune jo mujhe infi criticize (probably sirf tune hi♥) aur roast (atleast try to kiya hai bohot 😊) kiya hai, uske kaaran hi thora kaabil ban paya. Thanks for always having my back in highs & lows. Baaki tere jaisa logical thinking skills wale nhi milte dekhne ko. Completely self-dependent, exams ke raat bhi pehle anime dekhega, PubG khelega phir 1 ghante padhai karega with full focus, Placement mein bhi 2 jobs 🙏. Same pose mein earphones laga ke continuously Youtube videos wala sight nhi bhulunga. Kaafi aage jaayega. Hope to win an argument some day 😊.

Kirtesh Ajay Gadiya : BTP-1 ka presentation yaad hai kya? xD! Using phone in Nantha's class to giving presentation to Nantha and getting dassi. Do you receive civil department mail? Just code and aim big in life. Your contribution to H2 Film & Media GC is in valuable. All the best! Be wild always!

Goru Meher Ritesh Kumar : Yo Nishit! I will always remember you saying there'll samaj raha haina thum ye bolraha hai... Whenever I say something ridiculous. You are a great guy and a very good team mate. All the best for your future and hoping to meet you post lockdown :)

Anirudh Mittal : Insight FN ----> HK summers! Kaafi fun the dono! I have bunch of your photos trying to keep your eyes normal from the trip! Stay in touch :) <3

Lokesh Agrawal : Nishit mere bhai.. Tere bina toh mai pass hi nhi hota civil me bhai. You have helped and taught me a lot in third year. Thank you soo much for that ♥♥ Also our labs were always fun jisme me hum nikunj ki humesha maarte the😂 All the best for your future bhai and milte hai yaar.. Bohot din ho gye♥

Nithin Kumar : Bro <3 I seriously wanna chill in our room (234 was practically my other room damn) once again. You were one of the constants right from H15 to the last day when we left insti. I cannot do justice with words to the innumerable ways you've helped me out and the best part tbh is we did it for each other without even thinking it in those terms.. I seriously cannot comprehend ab tak kitna tera youtube time ya in general videos pe time spent hoga. You will forever be my tech guide. I never imagined Kalaghoda would be the last of our plans in insti but Bangalore's gonna be a second home, so 1st day 1st show nahi to weekend pe movie dekhne ke liye to pakka aa hi jaunga.. It's really another experie

Amarjeet Kumar : Bro the only constant in the wing koi na bhi rahe to tu mil hi jata tha, random se tere room me aana but ended up with late night or day talks with you guys. i truly admire you who you are, most logical person i have ever met kuchh bhi ho there was something special about you. I'll never forget how much you have helped me. Stay in touch and bada kaam karo Milte rahenge all the best 🙌
