Aniket Ranade : IIM A ke launde ho sir ab aap. hume bhul maat jaana. apna pact yaad rakhna 2 saal baad vala, naam sochte hai apan. Itni bakchodiyen kari hai apan ne meets mai. sorry mai har run-through mai so jaata tha. last year ke discussions tere mere aur Akash ke kaafi dope the kabhi bhul pana difficult rahega. ek aakhri baar saman nikalte time baithte hai room par.

Vikrant Nagpure : Anumay ji, Ab toh IIM A jaa rhe ho ab toh maan lo machate toh ho aap. Hamara milke Swapnil ke room pe uske maze lena yaad rahega xD . Aaj tak ek bhi outing pe nhi jaa paye uska afsos rahega. Milte h kabhi! Bhul mat jana apni company start karne ke baad! Stay in touch! :)

Yash T Rajan : Anumay sir! Na jaane kitne courses saath mein baithe kiye and har course mein ek alag tarah ka memory bana. ED ki bhaagdaud, Fluid mein being the only two people who attend classes(bhale hi so rahe hote), EE 101 mein backbenchers Combustion mein aage ekdum, sab kuchh dekh liye aapke saath. But har jagah ek cheez common raha, and that was your dedication and continued hardwork in every thing you have worked in, chaahe acads ya otherwise, and uske baad bhi alag level par modesty and ever helping nature. All the very best for the new chapter in your life, IIMA, and bhulna mat kabhi chhote logon ko. Ek baat hamesha yaad rakhna, mid value of a distribution can be outside the two extreme bounds X

Adarsh Rathi : Anumay bhai, from NCC to hospi hospi to TF TF to baap, we have shared this bond and we will share it forever. I remember tere ID se kaafi maje liye the hospi ke and also, how we usually have a common perspective on things, although you became so diplomatic in the tenure. Always fun around you, your witty comebacks to everyone and the responsible behaviour. Keep up the hard working dedicated attitude, for it's just the start to your rise to the pinnacle. You know how I will end it. hospi hospi!!!

Shubhankar Mihir Seth : Anumay sir, we became friends discussing ME 102 assignments, and I guess that never stopped. Itna dedication to acads, even in your manager tenure, hats off! I'll never forget aap Ramesh sir ke lectures mein kya aaram se sote the, IIM A mein aisa naa karna. It was terrific having you on the team, and please keep helping, guiding and mentoring people there too. Best of luck for everything - stay safe and take care!

Rahul Agrawal : Anumay Anumay! Batch ka krta dharta hai Bhai Tu 😄.(bas logo ko batata Nahi ki Sab krke baitha hai 😊). Tune assignments Nahi kare hote to Mera kya hota 😄. Jitni Baar phone uthaya hai, usse jyada Baar laga Nahi hai 😄 (exam se pehle sota hai Kyuki sir 😄). Especially 202 ke endsem wali Raat, 1-2 ghante tere room me baithke geometry samjhi thi Bhai pehle plane ki 😄😄. Or that Jonny quiz jisme TA ne end me question badal Diya tha 😄. Thanks for the help Bhai, maze me courses nikal Gaye mere since bharosa tha tune sab krakha Hoga. Kill it in IIM (vaise core bhi badiya krta Tu, Kaha chala Gaya ye 🤔) , and all the best. Stay in touch.

Kushagra Kacholia : Arey sir!!! Isi line se hamari sari conversations start hui hain. Bhale hi hum sathme bahar zyaada nahi gaye but fir bhi chahe mess ho ya hostel corridors ya fir class ke pehle aur baadme, bhot sahi baaten ki hain apan ne. Kaafi hardworking ho aap, and I hope you achieve everything you desire. Kaafi help kari hai aapne padhai me _/_ All the best and keep in touch :)

Rahul Manglik : Anumay, why don't you admit it that your parents wanted a girl an wanted to name her Yamuna and instead got you. You are the most hard working person i have met. Someone who studied a lot but was never a maggu, who cared for his marks but never cried for them, who made notes and never said no to sharing them, who did assignments.. you get my point. You are inherently cool because of this. Can never thank you enough for ME102. Apna tut batch toh mast tha hi. Bas class me time pe aaya kar, before time nhi

Swapnil Jayant Kumar : Anumay AshiQ :P itna kaise macha lete ho. Jaha haath rakhte waha macha dete. I have not seen anyone more focused and hardworking than you. Tere bina labs aur assignments me kya hota humara (especially Adams :D). Aman ke room ki random bakchodiyen yaad rahegi. IIMA me bhi macha dena and hume bhul mat jana. Teri company me job ke liye apply karuga :PP

Bhadri Narayanan R : Anumay, tu ek number ka harami h. You were the silent killer with subtle remarks, who could turn the situations upside down in a sec. The lecture release memories will forever be cherished and we shall take them to our grave XD You are always dedicated and responsible that even when you're wasted like shit, you still act like you are taking care of others. You've been someone I can trust with anything and be there for me. I'm sure we'd have more things to rant about in the future too :P

Amarjyoti Nayak : Frankly speaking, you are a really dedicated person/student. Sleeping at time, waking up at time, having breakfast and other meals at time, reaching class at time, studying at time, submitting tasks at time - you are perfect at all. I liked your sincerity and more importantly, maintaining that sincerity throughout these 4 years. And you always conveyed me - "Chaachaa, Pranaam" I am proud to have a Bhatijaa like you. Also, when it comes to PORs and other activities, you were there. It is like someone should learn the "skill of management" from you. Anumay, wish you the best life ahead.

Avish Naredi : Hey anumay. You were the best techfest manager I had enjoyed working with. Thanks for all the amazing memories and bakchodi from the TF days, and for the treat too :p. Stay the same and always keep in touch!

Sanit Gupta : Yaar god insaan toh aap ho hi bas khiladi aapka neighbour hai toh aap overshadow ho jate ho thode. Apni chhoti moti baatein humesha bahut fun rahi hain, and Khiladi se party sooner or later toh lenge hi no doubt. Machate raho humesha and stay in touch.

Ashutosh Kumar : Hiiii Anumay!!!! My hard-working, super efficient, maggu and machau coordie _/__. TF world never have been so fun without you. From bitching about Pranjal to all those ideation and nigh-outs♥. I still recall MI mein kaam karke meeting you and Akshita just to hear every new idea by Pranjal and the best were those 2 kg ke phool😂😂. Though uske baad we used to meet occasionally but they were just enough to refresh everything. And you & Ranade were always after me😭😭😭😭. All the best! IIM mein bhi aise hi machana and keep up the good work ♥♥

Kapil Shobhnani : Anumay bhai god hai baaki sb fraudd hai_/_. Tujhe dekh k humesha eisi feel aati hai koi life mai itta kaise machaa skta hai 🤔🤔, woh bhi har jagah, academics, bndi, TECHFEST, CAT. Kaash mai life mai teri trah 1% bhi disciplined ho pata 😊😊. Teri aur swapnil ki bdalot saare assignments and course nikale hai 😞😞. I would be happy tu agr NRI join karta, koi toh hota gurgaon mere sath :(, but koi na IIM jaake hum garibo ko mat bhul jana 😊😊. P. S -

Mahajan Devavrat Shailesh : One of the most sincere, dedicated and hard working person in the institute. I have closely seen you working during the Techfest tenure (being your roomie) and I can endorse on your LinkedIn that there is no job that you cannot handle with a calm mind. Daroo pike bas alag gussa ho jata hai kabhi kabhi. Aur maine to pehle hi bola tha Anumay to cho**a hai acads, kam, social interaction jo area bolo usme ch***a hai. Ab IIM A jake aise hi cho**e rehna acchi intern, PPO lena aur fir meri placement me help kara dena. Touch me to rahenge pakka!
