Hemant Prasad : Dada is the most sincere and responsible person ever. CR ki zimmedari kam aur bade Bhai ki zimmedari jyada nibhai. Only person in my life jisko apne neend pe pura control he (mattress faltu hi kharidi). "Haa maa" se shuru hone wali mom k calls aur Kolkata k sweets forever yaad rhengi. Humare HR interview ki preparation khatarnak thi. Dada thank you for taking care of the entire class. I'll always be grateful for your guidance and support. Always stay humble and calm.

Sanoj Prasad : Dada.... mere Physics buddy.. we shared the common experience of science (not engineering) students :D. Your commitment to work and your codes in life are really inspiring and i look up to them. All the responsibilities you took for the batch, made it very easy for us to go on. Thank you for all that. Or aapke funny one liners or witty jokes to awesome h hi

Sandeepan Dhoundiyal : Dada, you are one of the most well read people I ever had the pleasure of knowing. You were a terrific CR, and somehow managed to be an ever better DPC. You are definitely the most sincere and diligent of us all. Your wicked sense of humour and vast knowledge meant talking to you was always a pleasure. Your willingness to do the right thing and to help others were examples that I seek to follow. Sharing that Tuna in Goa was a great, even though the fish itself was not. Let's try some tuna roles in Tokyo. Those ought to be better.

Vivek Yadav : Dada.. Most sincere and responsible person i have ever seen.. CR aur DPC ki jo jimmedari nibhyi h tmne, khatarnaak.. Baal Brahmchari.. Tmhare room me bed ka koi use nhi tha, neend pe kaabu h aisa.. Tmhari research khtarnaak rhti h har topic pe.. One of the member of dismantled "Board Meeting" :P.. i remember waking you up for marine drive and bade miya when u skipped it last day for some work, aur uss din ke tmhare kisse.. Also the truth and dare session at last day of MoodI where 'Chhota Moni' was discovered.. Your dedication for work and helping others is commendable.. Rakuten me machana.. Epochs khtm kro jldi tb milenge.. tb tk stay safe.. All the best for your future

Koushik Konwar : Dada, I have always seen a mature and caring person in you. Be it CR or DPC , you have always fulfilled your duties and responsibilities with utmost dedication. This nature of yours will always help you to move forward and achieve success in anything you do. You are always ready to extend any help to your friends , which is very rare to find. I will always remember our random discussions from where we came to your about your vast ' Gyaan ka pitara'. Peetuk meh hamare trips bahut yaad ayenge. Take care dada and all the best for your future. See you soon !!

Aditya Vitthalrao Chondke : Dada, CR, Best Room mate. He is the guy you can rely on. Awesome guy had a great time with you bro. You were always there whenever i called for help. Guy with a pure gold heart always worked for the complete batch. Jab bhi jarurat ho dada just turns on his "CR Mode", picking up guys helping everyone, running for others all the time. I will always have memory of dada saying "bhai padh le kal exam hai re". Guy with so much knowledge, had a lot discussions and every time i learned something new dada. Sleepless nights studying for exam. Aur aapna clan "Board Members" wt Punit. Thanks for all the help and support dada. Finally thanks for picking up my laptop and my glasses off everytime i slept. Love yo

Utkarsh Kulshrestha : Dada. Tomara ki katha bala ucita? If dedication had a face, you would be the one. Not the gif wala face but the red eyes and sleepless nights wala face :D. Your hardwork is what defines you man. Sanoj ke baad ek tum hi ho jo physics se imaging tak and imaging se telecom tak gaya. Ek dum variety wala life. Our Zomato and swiggy treats are always to be cherished. Always something fishy in your room. The responsible DPC who coordinated throughout for the betterment of our batch. The discussions I've had with you during the lowest of our times have always left me with an immense amount of knowledge. Without you I couldn't have managed that AB in EE763 course. I owe a lot to you and.....FO
