**Jeyapriya T J :** The first friend in the campus. Whenever I was upset, just staying in your room made me feel good. Obviously A friend in need is a friend indeed. You were there when I needed someone the most. Everyone you introduce to me whether it's your special friend or roomie or their friends, they were awesome to be with, they had something to learn. We had our fun with that planned but unplanned journey to dadar beach, late night Lake view road, winogradsky. Wish after all gets over, I'll be able to come to Delhi as we planned :p
