2020

Aditya Biniwale : I would only require one line..... Have I seen a better (humble, intelligent, genuine...use all possible adjectives) person than you? No way, you are the best. Thanks for always doing the heavy lifting job in the team. MIT mei macha dena (goes without saying you will).

Anant Taraniya : The workhorse, backbone of the team now going to settle in Amrica. Bina treat diye gya to bhot mehnat krke waha aaunga aur marunga tujhe. Tabhi aatma ko shanti milegi

Ananay Garg : Suddu bro, the more I learn, tougher it becomes to understand you. Kya hai be tu. Tere baare mein apne bacho ko misale dunga. Tune bro judge nahi kiya kabhi. Kisko bhi. Always approachable. Apne upar le kar, hamesha manage kar lena hai bro. Moral compass bhi mast hai. Give up bhi nahi marta. Maze poore hai bro. Bro, lucky to have known you and spent the amount of time i had. Machega tu bro, bahut machega. Khush raheio :)

Ayan Choudhary : Really liked your gentle attitude and always greeting with a smile right from the first day at H16 :D. Best of luck!

Vatsal Srivastava : From errors in code to problems in acads to mistakes in life, you were always there to help, in spite of your own huge commitments. Will miss you too much! But in times of need, I'll always remember, "I have a laptop, an internet connection, so I can figure it out" :) All the very best for all your future endeavours (MIT and beyond)! ♥

Ruchir Jasmin Chheda : Suddu aapke saath bahut mazaa aya, didn't expect ki choosing AUV would be one of the best decisions in life till now. It was more of a family type environment, constantly trying to help others, irrespective of your busy schedule, listening to our quarrells, going to Essel World. It was very nice having you with us (sophies). Testing under the sun, in the rains(though that couldn't happen this year🤔), swimming for hours, following the vehicle. It was one hell of an experience. MIT is lucky for having you, as was AUV. Mazze karna, aur treat dete rehna 😊😊

Kale Ninad Naresh : Suddu bro... I love u man. kafi mast banda hai tu kafi chiye sikha hun tujhse me i am srsly gonna miss this days man. As a leaders infi zhagde ham but bro har fight ke baad next moment wapass normal bhi ho jatethe ham. Placement time me kafi help ki tune bro me bolta hi hun har baar ik tu "aise nahi hai bhai" bolega but still agar tu nahi hota toh idk me ache se interview de bhi pata ya nahi. I owe u big time buddy. Apna Himalaya ka trip.. kafi awesome tha bro kafi maja aaya mujhe. Tere dedication ki toh me tarif har baar karta hi hun usme kya hi bolu. tere jitna dedication kahi nahi dekha mene. MIT jake bhul mat jana. hamesha touch me rehna bro. I will miss u a lot man.. Thanks for everythin

Shubham Gupta : Yo Machau bande, I still remember the first time I came to your room asking an algorithmic problem. The way you tackled the problem and gave insights taught me a lot... You are always ready for anything despite having 50+ credits, RnDs, TAs, AUV work... I always liked your never giving up attitude, simplicity and the way you greet people with smile :) You have always been a motivation to me. I can't forget the Avalon we played on beach, it was so much fun, the only place where you became evil and still got recognised as good because you are Sudarsanan :) I am so fortunate to have met you. Thanks for everything. Aage bhi machate rahna aur bhulne toh nahi dunga :p

2020

Sanjoli Narang : Suddu, you are the most hard-working, kind and down-to-earth person I have seen in the campus. Your gentle smile(even in tough situations) and helpful attitude gives motivation to achieve anything we aspire. I respect you as an ideal student and cherish you as a friend. Kitna tang bhi kiya hai maine aapko help maang maang kar :P Will miss you a lot! Have a wonderful future ahead :)

Shubham Tiwari : Suddu, likhne ko to bahut hai, but the thing, that inspired me the most, which I'll tell the generations to come would be you and your laptop. Like, everyone complains about the lack of resources. We cry over our slow laptop. But you reached MIT with a decade old Pentium laptop. Managed the entire team on the same. Your dedication was just out of the world. It made me realize that if you have the will, you'll achieve it, irrespective of the resources you have. Apart from your dedication, your humble and down to earth nature was equally inspiring. Bas ek hi dukh hai, aapse treat lena mai maza nahi aaya, kuch zyada hi easily mil jati thi :P

Kumar Saunack : You're the only other CS guy in the hostel who I counted on to turn up in Crossy every time, apart from Nitish. No wonder you're so thin: I saw you going to and fro from the academic at all times of the day. But MIT's a big place. Are you sure you'll keep cycling?

Andrews George Varghese : Suddu, I don't know how to put it down in words, but I'll try. It's been the most amazing journey that I've had with you. You're the best in every way, Suddu. ALWAYS calm and composed, super fun, caring, patient, understanding, everything (super smart tho I don't have to say). Thanks for helping me become a better person, coder; for listening to my late night rants, for all the advice and opportunities - for being you :) You made the lab a better, brighter place. I am so glad to have met you. Will never forget all our experiences, canteen talks, testing in the rains, esselworld and movies. Hope you have the most fantastic life ahead. MIT mei bhi macha dena. Keep in touch always. Have fun <3

Akshat Raj Lad : Aap inspiration ho yaar Suddu! Itna hard-working and down-to-earth person shayad hi koi hoga. There is so much to learn from you. You'll be missed by everyone in the team. Macha do MIT mein (aapke liye to ye sab itna usual hai ki bolne ki zarurat bhi nahi hai :-P)!!!

Chaitanya Chandrashekhar Tate : Aap to god ho! Aapke baare team join karne ke pehle se suna tha par aap toh socha tha usse jyada humble aur sweet ho! Mujhe abhi bhi yakin nahi hota aapke jaise shant insaan k black belt hai :p

Vyankatesh Hemantrao Sawalapurkar : Yo Suddu!! You are the most helpful, caring, talented and down to earth person I have ever met in the insti. Aapse kafi kuch sikhne ko mila hain in 3 saalo me. Hats off to your dedication towards the team. I still remember my freshie year's summer, jab aap pure din-rat lab me rh kr team ka kam krte the!! Pata nhi kaise kr pate ho ye sab. Aur kabhi bhi kisi ko kuch bhi help chahiye hoti thi to you were always there!! Abhi MIT jake bhi macha dena!! Best of Luck!!

Nakul Rajesh Randad : Bohot inspirational senior ho aap suddu. Kaise karlete ho itna sab manage!!! Bohot treats diye hai aapne n no complaints for that. Aapko mech me bohot interest hai ye to chamak hi gaya (M6 ka structural ANSYS analysis yaad hai naa). Lab me koi ho na ho aap to rehte hi the. Will always miss ur presence there. N kisi team member ke bday cakes properly nahi katenge, I ll ensure that 😊

Shaunak Vijaykumar Natarajan : Suddu yaar, aap (last year) elec subdivision mein the toh nahi lekin in terms of interaction and testing and nightouts and time spent, aise laga toh nahi <3. You only got better in fourth year, aap ne as a team lead, i think, kaafi sahi manage kiya. I'm glad to have known you :) and wish you the best for the future :)))

Yearbook
2020

Navoj R : Hey da!! I remember when we first met in a common division course in first year. Thanks to you I could learn some Hindi in my freshie year. ED was fun. You have helped me countless times in my first year to get used to the new culture here in Bombay. I will really miss a buddy with which I can go to Tamil movies particularly yes Vijay movies ♥. All the best. Proud to have a friend going to MIT. Don't stop there. Go beyond. Best of luck da!! And keep in touch

Tangirala Pavan Bhargav : Sudarsanan, dude!! If relentless was ever a person, it would be you. I never knew how you were able to handle so many things at a time, and I never will figure it out. Thanks for waking me up on a regular basis. You are such an understanding and accomodating roommate!! I know that you'll do great in the future.

Pragadheesh Kumaran : Machan!! It was so much fun knowing you da. All our mess conversations made me forget that the food was horrible 😂😂 From meeting in NSS weekly to nearly meeting every meal we grew close 😊 Don't forget me da 😊 Go to MIT and do more awesome things 🙌

Athul Arun Nambolan : Hey Suddu! No doubt you are one of the most knowledgeable guys yet equally very humble. I haven't met a single CS/Software guy in my life other than you, who was able to maintain interest even in activities like tightening bolts (I don't honestly think I will meet someone like that again). Enjoyed working with you at Team and Tech Meet Project. For the amount of work you manage, you really don't take even half the credit. All the best for life ahead at MIT and further man!

Mohan Abhyas Vabilisetti : Hi Sudarsanan! You are the best person(along with hari :)) I ever met and the reason for my happy insti life. Aapne mujeh sab kuch hi sikhaya hai more than any teacher/person just like a parent. aap sabko bahuth help/improve karthe ho no matter how bad they are. Sometimes, I doubt whether you are a human. You are an ideal human being. I believe that one day you will definitely become an inspiration to India like abdul kalam and even more. CS ke saath baaki branches like physics ko bhi improve kardena. Thoda aapke baare mei bhi sochlo instead of always making others happy(sab aapke jaise bahuth acha nhi hai). Aur ache se soo jao. MIT mei aag laga dena. Thanks for being in my life.

Anirudh Arputham : You are really one of the most amazing friends I have ever made. Was super excited to find another Tamilian in our batch. You are really down to earth and have one of the best attitudes I have seen. You always made time to help me no matter how busy you were and I could not have done any of my coursework without your help - Forever grateful to you; Thank you so much. All the best for your future (you have to keep in touch ^_^) and I know you will do awesome wherever you go.

Advait Padaval : Yaar suddu aapke baare mai its really difficult to put in words, ur humbleness and down to earth nature is something that amazes everyone who has known u and who will as well. Its amazing to see u do work in any situation with anything available! You always have been a motivator for us and ill definitely miss your presence in the lab as koi ho na ho aap humesha hote the. MIT dhanya ho gaya aapko paake. Haath marneka bhi training ko i'll follow seriously on every bday :p
