Sumedha Ghosh : Hey. We became quite good friends in the last semester. Starting with how much i adore your smooth driving. You made our Goa trip so memorable. There will be more such trips in Bangalore. You are good and loving soul. Never hesitate to give me a call after 20 years even if we are not in much contact. I wish to be your good friend and keep on planning trips with you forever because i know how much we both love to explore♥Thanks for all support you have given me. I am beyond words to express my feelings here. Loads of love. You deserve the best and you will surely get the best.

Mufaddal Bhanpurawala : YO Ankan, just a random guy I met during the intern and I didn't imagine counting you among some of the best people I know. Our treks together were most memorable and it wouldn't be a joke if I say that you'd literally saved my life more than once. Let's go on a trek again sometime , you see my other friends would disown me if I say something like that.
