Krutika Talegaonkar : Pranam Paaji!!! Tussi bande toh bade pyaare ho par tension bada lete ho.Kuch zyada hi emotional ho..We have been friends since placement time only but the way you helped my classmates with the placements was heartwarming.Thank you for that.You are a sweet,nice caring human being bas kabhi kabhi Dusron ki Zyada hi parvaah karte ho..mat Kiya karo!! Baki toh aap bht acche ho!! Baki touch me rahna hamesha..Dubai jakar bhul mat janaa Baki sab toh Changa hai hi!!

Saket Milind Kothalkar : Aur Ballu darling kya haal hai.. ! Royal person..terese pahli mulakat PO me hi hui thi tab laga nhi tha ki tu mera itna close friend banega par saale tu hai hi aisa ki koi bhi teri pyaari baato me bah jayega. I am sure this must be the reason why you able to convert so many companies in phase 1, saari HR teri pyaari basto se bah jahi hogi😄 Most caring and humble person I ever met. Whenever I was in trouble, you were there to support me. Apn dono CCs ki jodi thi bhai. I truly enjoyed working with you. Dusre ki problem ko apna problem samjhke help karne wala banda hai tu..tera late night call karke puchna "saket sutta hai kya?" hamesha yaad rahega muze. Tere saath baithke daru party karni thi

Aditi Yadav : Hey CC, this journey of not willing to work with you to being grateful for being your APC has been incredible. I have made so so many good memories with you in such a short span that insti won't be same without you. I will miss our after dinner walks, VMCC ki chat pe gossips, and your happy go lucky nature. You are best in your work, be it acads, extra curricular, or being a friend. Thanks a lot for always being there for me, and adding all the filmy masala in my life. I will miss you GM, and I love you. Theo*bro*ma chalna abtak pending hai. I hope we meet again before you shift to Dubai. -Your APC

Sanket Chavan : Bhai tune jo likha hai room wala sahi hai. Mai kuch likhne nahi wala tha pr abb tere liye likh hi deta hoon. I enjoyed too being your roommate. Your approach for solving any engineering problem always inspired me. I also like to approach the problem same way but tera jaisa clarity nahi tha. Jo bad mai apne discussion mai ata gaya. Thanks for unknowingly teaching me that approach. Baki bhai tu man se bohot pyara insan hain aur bohot hi jyada emotional hai. Pata nahi itna emotional hona sahi hai ya galat pr itna hai ki isi chakar mai tu kabhi kabhi bohot jyada sad ho jata hai.

Chodvadiya Keyur Pravinbhai : Bhai jitni employment tune create ki hai mtech mechanical walo ke liye utni to shayad indian govt ne bhi nai ki hogi. Bhai wo CFD subject me jitna sikhne ko nai mila usse jyada ek close friend mil gaya. "Bhai tu bohot sahi banda hai sift emotions control krna sikh le" pata nai ye line mene kitni bar boli hogi. Or bhai mera room to tere liye dusri canteen hi tha. Tere sath quantum mechanics discuss krke bohot maza ata tha. I won't tell you bhai ese hi rehna because Bhai tu bohot sahi banda hai but emotions control krna sikhna baki hai.

Azim Oliya : Yoo...Ballu!! First year main tho hamara itna interaction hota nahi tha...lekin second aur third main hamne kaafi night out kiye hain. Hamare bich main thodi misunderstanding bhi hogyi thi bich main..Lekin jo bhi ho maaf karna mujhe. Naye baccho kae liye jo tune MATLAB ki workshop kae liye mehnat ki thi wo kaabile taarif hain. Uske liye puri PGAC team ki taraf sae thanks bolna chahta hun. Baki abb mere liye bhi likh dae.. isiliye maine bhi likha hain 😊

Nisha Satish : Insti bandh hui aur hamaari baatein shuru hui! Conversation started off with literally being question and answer. And now its a routine. You are someone to have seen many of my colors in a very short span of time. Bandra waala plan toh bhul hi jao. By helping you cope up with life and situations, I was indirectly helping myself. I wouldn't have gotten out of the "phase" so easily if not for you. I want to thank you from the bottom of my heart. yaad rakhna, "Today is a gift, hence called present:)" Baaki ka kal phone pe bataadungi. -NishaG (like parle-G)
