Suyog Kapsikar : There are so many things to remember and so many things to forget. I hope we only have things to remember here on. All the best buddy

Jaideep Singh : Let's just hope this post makes you happy whenever you read it next. Thanks for completing LS-101. Thanks for bearing me at times. You've been really good in believing in yourself, I hope you continue that. All the best.

Vartika Singh : Mufassir, tareef nahi karungi tumhari, because I don't know what can I say. We had hard time together, and we had our dark days, and we still survived. At the end we held one another's hand and stood up with love. No one really knows our story, even we don't know, but I knew for sure I'm never gonna lose you... Ever. Whatever happens, happens, but I know you'll stay, and bro, I'll stay. We are family, good days or bad, we will be family. ♥ Forever and always 🥹

Aman Srivastav : A room mate who does not live in the room, what better roommate can any one expect? An interesting person to talk to, with a unique view on things. Had you spent more time with me your life would have been more boring. But now you have great stories to tell. So keep making great stories :)

Ratnesh Srivastav : "Mufassir" for the world but for me "Muffi" and "Musafir" 😊
You are lucky that your inner child is still alive.. ! Your cute expressions can even give complexion to grls.. 😊😊 Just remember.. the world cannot defeat you unless you accept that defeat and stop putting your efforts..! As tempering process in metallurgy is required to make material long lasting by removing its brittleness and internal stress.. same happens when we come across hard times in life. These all make us tough and helps us to tackle the hardship by inculcating the maturity and finding the opportunity among these. "Do not underestimate your potentials... Your achievement of life will always guide your path." Keep s

Pankaj Kumar Sahu : Hii Mufassir. Bro hum log (main, tum JD and Aman) first year k starting m PUBG khelte the kitna mja tha usme bhi phir hume realise hua ki yha padna bhi pdega. I will say you are very straightforward person and also sensitive in nature. you are also helpful. You helped me during the registration process of Juniors. We had very good memories in the college with us. Once when we talked shared me what is in your mind and i was quite impressed that you want to support your brother sister and your family completely. warna aaj kal toh kuch log kuch aur hi sochte hai but tum y baat bhut aache se samjhte ho ki tumhari family n tumhe kitna support kiya hai. All the best for your future. Thanks Bro!

Krishna Gupta : hi bro , you are first person jisse meri baat hui iit se pehle . one thing i like most about you that despite many hurdles you keep yourself focused . i wish you live very joyful in your future.all the best for future

Ankush Kumar Singh : All the best :)

Sandeep Kumar P M : Hi mufassir, I have never seen a confused guy like you. Hope you have better clarity of life now. Best wishes for your future 😊

Vanessa Beddoe : Hey Mufu! You've always come across as a really helpful person, right from the time you were a new joinee. I'm glad we teamed up for healthcare. We'll surely go for our next trek soon and make use of our new caps.
