Prasad Raju : David.. You are best person IITB has provided to me. You heard me, understood me and you are loads of support to me. When you say, 'Raju, tu tension mat lena' will get me out of all the worries. Right from initial days in H12 to untill now, we maintained the same bonding. Our weekend dances, cooking times, trips, late night talks, imitating profs, combined studies , magic juice were unforgettable. The night before reservoir exam, we all sat together and studied otherwise I would never clear it by myself. Although we could not go for a long trip, that planning was awesome. Stay like this my friend. I'm gonna miss u. All the best. Stay fabulous.
