Shubham Gorase : Initially, I always categorized you as "studious" kind. The book-ish kind of people. The ones who complete assignments well before deadlines (which makes it easier to copy for students like us 😂), one who follows all the orders of professors and set a benchmark!! And then Alibaug happened! (Sorry sarosh 😂😂) And I realised, this studious Telugu girl is more than just books and studies. There's a bold, fearless daredevil girl inside who loves trekking, swimming, adventure sports etc. 🙌. Try to keep doing these things while you're doing PhD. Needless to say "all the best for your PhD" ! Coz everyone knows you'll do it well! (Feel free to contact in case you need any info about trekking spots
