Krishna Subramani : Prakhhar Bro... dil ki baat bol di :) Optimization to yaad rahega (plus the post endsem stress busting pizza session at BnB!) Xbox in the lounge with gult, GRE padhai, South Park (and Rick n Morty), noodle/pasta making sessions plus random bakchod, bahut zyada majaa aaya hai tere saath boss. Special mention to you convincing me to watch South Park with the human cent-i-pad episode clip xD I am very glad you were always there to chat, I just had to knock your door (helps that you were just across xD)! Rock in Jaguar man (as you have done in insti!) and enjoy your time there :)

Pranav Sankhe : Prakhhar broooooo Damn. 5 years! But it feels much more that. Starting from silly shenanigans in freshie year to playing insane pranks in the sophomore year to having innumerable talks over research, life, death, and everything in between. 5 years in insti were the best years of my life and I cannot possibly imagine them without you. I have been part of so many different groups but you were the constant among all of them. Be it Arpan, Gult, me and you, Kraken, Kattappa, and Bazookas. Thanks for being there dude. Of course apna milte rahenge, baatein karte rahenge. Stay awesome!

R Aditya Narayan : OMG where do I even begin. You are literally the one person I could talk to about anything in my freshie year. I can say you were the roomie that taught me responsibility and I'll forever be grateful for it. And you are one of the most passionate people I've ever met. Always stay in touch, you make my life better!

Ravi Kumar Kushawaha : Thank you meri jaan, meri itni bakwas sunne ke liye. Thank you for supporting me. Humne kafi masti ki saath me. You taught me some important life lessons. Milte rehna. P.S. - Kabhi future mein same company mein milenge.

Sanket Agrawal : PJ mah boi! I have been "aware" of you since our time in Bhopal as you being the math king, but I really got to know you from the wonderful time we spent in the wing and during the trip. You are really a very sweet person with a good heart. The way you stand up for people is something not many can do. You really helped me in dealing with my insecurities too :) -5 was an experience I can never forget in my life and glad we survived it together. All the best for the future and please stay in touch. PS: To more FIFA games which I always win! PPS: Kabhi gaire chalte gain saath main!

Risha Agarwal : Hey Prakhhar, You're a really sweet person and lots of fun to hangout with. Hoppipola was fun, the movie.. well 😂 I hope you achieve lots of success in life and please keep annoying sakshay on my behalf too thx? :D

Nakul D Ghate : Prakhhar bhai tera rona sun ne me bahot mazaa aata hai xD I confess Placement season ke time to I used to knowingly call you just to hear ki aaj kaunsa rona gaayega :p But yeah we are the opposite sides of the same coins in terms of how we don't care about certain things and compromise on them like there is no deal. I will always miss those interactions we had in the department. I thought I might be the most frequent visitor but you beat me in that (bhai kitna kaam krta hai). I must say I really got sad when you were not getting what you deserved during the placement season but when you got placed in day 1, it felt like a big relief for me. I wish you the best bro in this new chapter of your corporate life. Also yaar apni suit wali picture rh gayi hai lets get it done soon :)

Tanya Gupta : Yo Prakhar! It's been crazy knowing you for these 5 years. Do you remember how you approached me on the first day and then freaked out after the women's cell orientation and clarified you didn't have any ill intentions? 🤔 From starting in civil together, branch changing to mech, doing that RPD course project together, late night walks and now playing skribbl and psyche it's been a hell of a ride. I will always remember that you accidentally called home at 2am and then when I went back over the weekend I was grilled on 'why is there a guy calling you at 2 in the night' (How do I even explain that insti is awake at night to them) Tere lame jokes are definitely an acquired taste ;P I'm sure jab tak Kaanda group exist karta hai we won't lose touch♥Kal 10 baje group VC?

Shashank Sarvan : Pj, you're my unsung acad savior. From the time you pulled me from an FR in the FEM course to the numerous times you gave me your assignments in the last min, I salute your service :P Thanks for making my racing team tenure fun. You and pritam adopted me in the VD dept. I will never forget the discussions we had on our Monday blackboard meets. Sorry for pestering you to give me the steering v radius graphs; you never made a fuss about it, which showed how dedicated you were to the team. I also want you to know that you pulled an inspiring balancing act juggling acads and everything in insti. No wonder Sangwan never gave me a project, you set the bar too high :D You deserve only the best :) T

Harsh Chandak : Yo Prakhar! Bhai apna kitna sab kuch same hai. Civil mey JEE ke through admission lena fir MECH DD mey BC maarna aur ab saath mey JLR mey job. Tere se baat karne ke baad mood fresh ho jaata hai, bohot enthu hai tere mey XD. Class mey saath baithne se leke Machine Design ka apna Gutter Cleaner wala project kaafi cheeze saath mey ki apan ne, kaafi maza aaya sab mey. Hope ki aage bhi aisa hi rahe. Life mey aisehi haste rahe humesha aur dusro ko bhi hasata reh :D

Vihang Wagh : Sahiiiiiii.....! Man, my second year in insti was the best because you, Jay, Pritam, Sarvan and Guru. Bahut seekha (aapse utna nhi but thik h :P). Football in H-7 was also infi fun! So were your random fundaes. Galat steering banane ke baad bhi itna machate ho. Simscape was a different level altogether. You are infi fun to hangout with. Never get offended. P.S. Sorry if my jokeinsults ever crossed a line. Keep in touch :)

Mohit Madan : Bhai lot of things happened between us throughout these years. Kaafi jhagde hue apne but we always ended up being better friends. You helped me many times in taking a lot of difficult decisions... remember when you helped me decide whether I should join Exofly or not. There were countless more incidences like that. I will always remember the times when I felt low but talking to you helped me feel happy better. Lets plan a go-karting day in bangalore and is baar mai tujhe pakka haraunga :p. Mai senti nahi marunga zyada but lets stay in touch. Abhi aur bhi bahut kuch likhna tha but there is a word limit here :(Bbye

Mrunal Chavan : Yo Prakhhar!! If it wasn't for Monash intern shayad apni itni baat na hoti. Well those r one of d most cherished memories for me.♥♥ Tere liye thodi terrifying bhi hongI I know, all thanks to ur house mom.😂 I still remember tu kitna darr jata tha when she used to call u.😂 Nd wo teri restrictions wali list.😂 I am really sorry tb tujhe wo quiche khilane ke liye.😂 tasty tha na wo but.😂 "I disown u" wala incident bhi yaad rahega hamesha.😂 Sirf tujhe nd mujhe pata hai Khuteta Emerald lake ke yaha kaise gira tha.😂 700 words to un 2 months main hi khatam ho jaege.😂 Kafi machau insaan hai tu. Always believe in urself nd do stay in touch.♥♥ Acha hua tu trip jake aa gaya before lock down

Awanish Kumar : Pjjjjjjjjjaaaaaaaaaa, we had so much fun bro, random weird fantasy talks to realistic conversations about people. I am going to miss eating few bites from your pizzas. Remember ovenstory (kaise bhul sakta hai 😊). Ab apna mangwaya hua veg khana kaise finish karega . I always admired how you managed to respect everyone's personal boundary even when getting so close with them. It's a hard thing to do, so keep it up. I am sorry for when I twisted your arm, and for blabbing in front of sakshay. Lets go to some more trips. Try to be the person you are now cause you are great and if you change, change for the better. Don't let the world change you.

Pramey Singh : You are one of the most sincere people I know. I had some really times and discussions with you over the years. Hope to see you in the Red Bull F1 garage soon.

Darshan Tank : Pjjjjj, initially jab bhi tere baare me kisi se bhi suna tha to bas itna hi tha ki 'achha Prakhhar, wo mech ka bt insaan'. Matlab tattti to tu karta hi hai, but there is more to you than that. kaafi bakchodi kaati hai apan ne iss saal. Infi Fifa bhi khela hai. You are really good at heart who will never budge to stand by people. Machata reh life me and get that PhD! PS. Future me jaguar khareedni ho to discount dilwa dena PPS. Get ready to get your ass whooped in Fifa online

Rohan Pathak : Prakhaaaaaar, yaaar thosee 2nd year baddy sessions. Kya dedication se apan ne practice ki thi for inter iit haha. But legit tereko dekhke maine sikha hai perseverance and dedication. Kitna massst hai tu. Though beech ke 2 saal gayab sa hi hogaya tha but again last semester mein apan khelne jaane lage :) Kaash aur ghum fir paate. And yes fifa mein toh alag hi pelta tu bro, alag hi pelta 🤔 Milte ghumte rahenge bro :)
