Ayushi Panghal : Meri pyaari Riyu, in the past five years I've seen a hundred different versions of you and can safely say that I love each one of them. I'm so glad that semex happened to both of us simultaneously and I had you to share all the mixed emotions and room with. I've come laughing, crying, confused, sick, hurt to you and you've always made me feel at home. You've inspired me with your loyalty, unwavering dedication and all the selfless care. You were our wing's mummy. :) Never stop being yourself. From your list of things to do in future, we're going to finish a lot of them together and capture them in gopros and polaroids. Missing your head massage as I type this, love you a lottle, ayu.
