Aditya Tapase : Hello Snehal, we have been knowing each other since the 1st yr when we were in the same PH lab group. Our Micro specialization kept us well connected. As everyone says, you are indeed one of the most hardworking persons in our batch. It paid off so well. The parties we had in the final yr and the discussions that follwed were so great. You have got a rough and tough attitude. But you really worry too much about some things which later always go on to be your way. So chill out. Your hardwork and dedication will surely take you to great heights. All the best for the future! Keep in touch!
