Mrunmayi Mungekar : Hey Kinjalzzz, we became friends indirectly, but then bonded pretty quickly, didn't we? Do bandaron ko saath me jhelne se aise dosti hoti hai kya? :P Random food outings, prospective shopping plans (sorry, window shopping plans) and our recently acquired love for Mahabharata (uh well especially one character, I mean, actor :P) Be the super-excited bacchi you are hamesha, Loads love!

Debanjali Chatterjee : Tu bohot pyaari hai. Tere baare mein sochti hu toh Piyu Bole song ke lyrics yaad aate hain: "Now just imagine, ek ladki, thodi si pagal, slightly mad, just like you"... you are that girl! Tere saath Hit n Run waala outing bohot memorable tha... and remember last yr summer mein mai tujhe recipes bhejti thi chicken curry banane ke! Tere bday pe video call bhi awesome tha, all of us from 4 different countries :D Apna bachpana kabhi jaane mat dena. Love you brooo <3 Infi big beating hearts :D <3

Riya Singh : Hello Kinjal! I have been very mean in our friendship and used you to get my frustrations out (atleast in first 2 years). This will be a regret and however much I apologise will be less. We were together in NSO football and I remember I punched you very hard. Similarly we were in same elec tut in 3rd sem and used to behave very rudely. I remember once I refused to help you an hour before thermodynamics exam just because I was feeling asleep. But I remember how I started feeling warm for you in the 2nd year when I used to come to your room for studying. I have seen you grow up and become a mature person with time. Like how you have forgiven me for the past. However rough start of our friendship was but now we have become close friends since last 2 years and I wish our friendship to remain this strong even in future.

Abhinav Jain : I remember when I had the very first conversation about you with a bandar(as Mrunmayi says so), I advised him to stay away from you and look now where we are! I feel so sorry that I told him so when you're such a cutie pie. My figurative daughter who is sincere yet childish, caring yet with a lot of tantrums, a good teacher as well as a good listener ;-) Stay the way you are, and let's not say we'll catch up sometime, we'll stay connected always!!!

Sanskruti Shah : Apni wo first midsem k baad waali walk <3, wo boat house waali talk <3, Apne random waala pagal pan, random dancing, apna saath mein sketch karne beth jaana, tera serious movies ko funny bana dena, and tere wo naye naye dresses try karne waale moments, tera bachho jaise harkate krke pura mahol sweet vibes se bhar dena ...kitne saare moments h ...I am gonna cherish them always <3, we had some serious ups and downs :p ...but those only strengthened us.. Stay in touch and stay the same ..<3

Nakul D Ghatge : Kinjal!!! i think we interacted for the first time long back when you were preparing yourself for Canada (Hope you had a great time there) but we came across more in your tenure as DGsec. I Still remember when you came for the groundwork a little bit frightened but full of enthusiasm. I strongly believe the enthu you carried throughout the tenure worked well and inspired a lot of 'baccha log' to have a feeling of genuine care for the department. I believe you will carry the same enthu and dedication in all your future endeavor. Wish you the best and have a good time in Toronto :D

Tanya Gupta : Kinjal! I am hoping you can ignore this last year for obvious reasons, but I will definitely have memories of you being all passionate about quantum physics, being anxious about all the room changes you had to endure, internships, MITACS, Honda and how you got all positive results all at once! Despite not being someone who drinks, I even had that blue cocktail thing at Jugheads in celebration if you remember :P I have seen you mature from someone with a very black and white view of the world to someone who appreciates the greys, and it had been a pleasure knowing you. All the best for your future :D

Rohan Pathak : Hi Kinjal, kitna random tareeke se mile the apan haha. Bahut pyaari hai tu and kaafi chulbuli bhi. Aise hi mast rehna. We have met each other so many times aise randomly ghumte hue haha. It's been good knowing and talking to You :) Stay in touch :))

Abhisek Sahu : Huggies! Can you count how many walks and talks we had? Far too many to count! I have known you since the first year and I have seen you develop into this responsible person who will go out in the world and take what she wants. It is amazing how you juggle so many things and still have so much fun! The best part- you are one of the most caring persons I have seen here. You are a fighter! And I am sure you are gonna go places. Wish you all the Best! Keep in touch! 😊😊

Umang Chhawchharia : Dude, even I thought you were super weird when I met you (btw I still do). Kya hi likhu, apan touch mai toh rahenge hi. Bas ek baat bolunga - Please meri baat pehle hi sun liya kar :p

Aditya Chalishazar : I think most of our interactions were indirect due to a great soul, but I enjoyed the discussion during all the DGSC meetings. You have a unique perspective on things. All the best for whatever is to come! :)

Sumitra Barhat : Tu bagal me baithi thi and the first thing jo dikhi wo thi tere extreme cute hath😂😂. But tab bhi tu annoying little bi**h hi thi♥️. Insti me tujhe andar se sabse jyada mature hote dekha hai. Sochne aur behave karne me koi itta nhi improve hua. Teri infi roommate tragedies, kisi ki hallie se itti complaint nhi hui hogi. Tu kinda Sheldon hai hamare group ki😂. And meri jaan frankness inborn hai re🤡🤡. Mast bhand hoke roti hai. Khair bina uske bhi roti hi rahti hai😂. And bhai apni mummy ke phone hamesha uthaya kar...kitti baar dhundha hai tujhe insti me😂😂. And itti sari prom dress nhi khareedte chomu😂

Rajat Kadam : Yo Kinjal!! Apna wo 7th sem wala walk about life choices and decisions humesha yaad rahega mujhe.... apne saath mai group study sessions jisme infi bakchodi hi ki hai....apna sabka club jaane ka plan unfortunately reh gaya koi ni kabhi pura kar hi lenge kabhi toh... Physics enthu maxx!! Tu bohot change hui over the past 4 years and definitely for the better :) Keep in touch!

Anupradiksha Rajan : Kabhi socha nahi apun itne achhe dost ban jayenge. Vaise tu kafi mature bani hai first year ke comparison Mai, kafi respect me to atleast. Tu hi hamesha ghar ka khana lekar aati thi although mujhe lekar aana chahiye tha😂. Road me dekhkar chala kar, hamesha apne aap me lost mat hoja. Rg kahiki, mera hamesha rg kar deti room pe aake, Lekin chai ke liye tu mere saath infi door aati thi, so maaf kiya. Tera kettle to tune le liya, kindle mere pass hi pada hai. Chal mere ghar briyani khane.

Satyam Mohla : Dude, we have had so many discussions on what next , bi#*\$ing about things in life and what not, that I better leave them unmentioned. All the planning we discussed outside kresit last time we met has already gone down the drain. tujhe to mujhe stay in touch bolne ki zarurat nhi hai, pta nhi sophie year (honda i think?) se tang krri hai mujhe :p It has been great knowing you and yeah krte raho tang :D

Vardhil Mehta : Kinjal. Apana interaction mainly MD me hi hua h. Usme se utna to pata chala h ki tujhe koi bhi nayi chiz sikhne me kafi enthu hota h. Teri H5 ki campaigning aur fir DGSec ban ne ki treat! Ese hi life me enthu banaye rakhna aur thoda well-managed ho ja :P. All the best for your future.

Pattisapu Divya : Kinjal has two energy states. In the ground state, she makes rational decisions and holds good discussions. When she absorbs some energy from the surroundings, she goes into the excited state. Like an excited electron with all its extra energy, she talks endlessly about cute, teddy bear like things and shares her stories excitedly at the dinner table. The outing before Diwali was truly amazing, I've so many pictures of it and it brings a smile on my face every time I look at them. Thanks for all the lovely times we spent together.

Abhijeet Aanand : Hey!! Sorry for whatever stupid I did during TF. I hope aage ki memories made up for that. Last year, we kept on bumping into each other in CC and I forced u to watch pilot of Suits. Jaldi khatam krle suits yaar. Thanks a lot for being a patient listener to all my stupid shit. I hope I didn't bore u. Baddy spree was fun. Kaafi plans cancel krne ke baad finally we started it and it was amazing tbh. Damn corona otherwise aur khelte yaar. And that movie night was awesome. Kaafi memorable thi yaar wo. That conversation we had made me respect u a lot. Baaki agli baar milne par gaana pakka sunaunga. All the best aage ke liye!! Let's stay in touch and I know you will rock at Columbia.

Yash T Rajan : Dude! Finally Tere infi Bolne ke baad likh Raha Hun :P Fluid lab ke same group mein being the only 2 people jinko expt se matlab tha to Canada day concert and uske baad ka time, kaafi memories hain apan dono ki. Apna MD group has to be one of the best project groups ever <3 and Abhinav ka dimaag kharaab karne mein infi maze aaye tbh :p. You are now at the entrance of a new life with amazing possibilites ahead, and I wish you all the best for everything that comes your way. I know that it takes lots of courage and self belief for someone to walk in your shoes and come out as successful as you have been, inspite of the so many difficulties you have faced, and you will always have my respect fo
