

## KAUSTUBH TALELE

Civil Engineering

Yearbook  
2020

**Onkar Kanthale :** Kay Raav Kaustubh, Bara Hay Ka 🙏 The most talented, approachable, creative, helpful, and a wonderful friend !! Software expert and the solution to all assignments 😊, Thanks for being so hardworking and helping everyone in our group 🙌. Let's have more trips, movies and fun this year if Korona permits !! You are going to have great achievements in your life. I wish you nothing but happiness in your life ♥♥

**Barkale Shubham Uttamrao :** Yo Kaustubh, you are one of the genius minds in the insti esp. when it comes to coding or software! Looking at your hair style it's very easy to guess you are a classic Tabla player..as we came closer from 7th semester more I got inspired by you.. inspite of having a lot of talent and skills you are so down to earth! I really appreciate your sense of humour, caring nd supporting nature and simplicity. Last few semesters were memorable as we used to sit for group study (thanks for saving our coding assignments) but would spend most of the time chatting and playing and then cold coffee or soup in night canteen nd Movies in my theatre room 😂 hope we will get same hostel, fun continues nxt sem

**Garvit Goyal :** Kaustubh sir (It should be duly noted that I didn't use your other name :-p). I won't be surprised if you still have some more talents up your sleeve. Some of which I'm aware of (apart from struct \_/\\_, of course)- Gawd driving skills, tabla, coding, and table tennis. You are among the most hardworking, modest and good-hearted people I know. We've made some great memories, not least in the final year. I still remember how you drove us through the downpour and the equally daunting fog on Malshej Ghat (honestly, none of us were sure of the plan at the start). Firse road trip p chalte h!! Good luck with your career, man!
