Nikhil Rai : Hi Boomer <3 I genuinely hate this unexpected vacation so much for cutting short your last semester.. We could have had so much more fun in these last 2 months .. I'm still very glad that you came and sat next to me in the first lecture of 207.. You made those boring lectures less boring for me and provided me a pretty good motive for waking up early and rushing to the lectures ... I'll miss sitting next to u, looking at memes and laughing together the entire lecture .. I'll miss visiting your hostel room after lab and eating pizza with u :-(Thank me for adding an extra item to your college adventures list :p (sneaking into boys hostel room after 11pm) I'll really miss watching office wit
