Mainak Saha : Arrey Swastik Soumya Sriman Kuldeep or my first year roomie!! you are really good from heart and that makes u a v.special person. Will miss u as someone who overly complicates things and take it to deepest low ever like from Mt Everest to Mariana Trench XD... You have infy core enthu in you, do not let that depreciate as India needs engineers like you (XD) & thanx for all the help in courses (ignoring the RG :P XD). Well apart from NSS we're also in the unique course of welding XD.. All the best for the futr and machate reh like you have always been! Oh gotta sec. although u hve girls at ur priority do remmbr not 2 neglct us frnds in future (I hope you understud tht after Nano course XD)...

Ritesh Kumar : Brooo, had a great time with you talking about random things. I guess it started with me sharing masala magic packet and then after somedays I barged in to your room to see your almirah full of perfumes. Keep collecting. Then we regularly met on the terrace of H18 (where you used to frequently come to take fresh oxygen 😊) to again talk about random things. Thanks tu AIDS dekhne aaya and tujhe folk bhi pasand aaya ♥. Itna late mila he tu H18 me 😊. I hope we can stay in touch.

Himani Gangurde : I'm so glad I got to volunteer under you during freshie year 😊 you're one of the best seniors I've met ♥ You're always so kind, calm and chilled out! Kaafi machaate ho aap, aage bhi machaoge hi 🙌

Arpit Agarwal : You are one of the guys jiska Engineering karne ka sense banta hai. Your story is inspirational- the way you cracked JEE without coaching.. Your attitude of not studying a day before exams used to drive me crazy- Here I am sleep deprived and this guy wishes to sleep 10+ hrs a day and re-watch a series. Seriously dude? Dar nhi lagta hai kya? Yaar yeh room ki chabhi ne bahut bakchodiyen karayi hai... Your 1 habit used to drive me nuts- "bhai jab uthe tab please mujhe utha dega?" Phir uthane par Thanks bro! bolke phirse so jayega. Aisa kaise ho sakta hai koi??

Pragya Valay : Hi Sunil! Mast aadmi ho tum. Jab bhi mile hum, bahut baatein kari, now when I write this, I realize ki hume aur milna chahiye tha. Koi nahi, aage mil lenge. Zindagi ke liye all the best, message kardiya karna kabhi kabhi :P

Kesha Tamakuwala : Suuuniii!!!!!! i don't even know where to start, it feels like I've known you since forever. Tu dil ka bht zyaada accha hai, AA tenuree tum logo ke saath is the best part of my insti life, those NSS room and h2 days were amazing. I love how we talk after months altogether and still connect so well always. Placements se vaapis catch up karke bht accha laga. Khush raha kar and devdas mode me kam jaaya kar and tu bht weird hai and hum ek din ludo zaroor khelenge :P, Yaad rakhna mujhee!

Athul Arun Nambolan : Sunil Bhai ...4 years in Mech in DD (CIM), bohot acche discussion hue hai apne with coffee at BnB and in hostel -18. I haven't fully understood the ideas you shared on terrace ...but I will give it a hard try. Baaki life mein machathe reh, you are really a cool person to hang out with !

Harshita Verma : I never knew the kind of energy one person can possess but you made me realize on our trip to kalagodha 2 hrs or maybe less ki neend pe poora din nikal liya _/_ I know hum placements mein hi zada interact kar paaye the and I used to keep me next to you considering you as my lucky charm :P (lol :P) but I'm glad we met through placements and had that fun trip to kalagodha. Stay happy and stay in touch jaha bhi rahe :P
