Aryan Aryan : Patil boi! Tu sabse unique piece hai😂. Remember those nights, when we used to go out on walks?😊 I'll miss your stories. ML me to alag phoda be tu! Kabhi bhi baat karo, 4 projects leke baitha hota hai😂. And tension na le, koi Marathi bandi mil jayegi tereko😂😂. And thanks for your cycle bro, you are a life saver😊! Apan touch me rahenge!!! 😊😊

Kumar Saurav : You have such a quirky behaviour, it's tough not to be amazed at it - such flowery eloquence at times on select topics (an occasional philosopher's high) , your addiction to CS:GO (among other things), frequent Mac and Windows reinstalls (and the accompanied crying). You have an unbelievable amount of interest in tech, the most among anyone I have met so far. I still remember taking your help in that ill-fated RnD Project under your dear professor - such disaster in that particular course. Ah, and your addiction to caffeine and pizza - boxes and cups stacked all over the place. I still remember messing with your caffeine - the kettle going black because I had put Sprite in it😂.

Kumar Saunack : You were the victim of my grenade attacks regardless of whether you were on my side or not. Sorry? Not sorry? :p Most of the time they did achieve their objective so it was just collateral damage. And I appreciate you for your willingness to be sacrificed by my grenades. A true team player.

Sahil Shah : Patil Bhau! The first memory I have with you is from the Mech Workshop where we had a super productive 3rd teammate. Dropping by your room on the way to my room and ending up spending hours doing something or the other was always fun. I will never forget the way your room started to smell after you adopted the cats, or that more often than not there would be wine in your cupboard. I remember the every-growing stack of pizza boxes that balanced out all your gym visits, which ensured ki tu kabhee thake nahi. Discussing all sorts of things with you is always fun and I admire your unadulterated passion for research. I'm sure you'll end up doing something amazing! Hope we stay in touch...

Yearbook
2020

Rajat Rath : Arre Patil! PACE mein the hi apan par aur acche se freshie year ke start mein hi mile. Marine drive visits were fun. Saath mein kaafi aana jaana hua Nashik mein, aur fir CSGO toh tha hi. Ajeeb hai tu kaafi. Hamesha Awate ka kaam karega nahi toh CSGO khelega ya windows reinstall aur saath mein 24x7 Friends dekhta rahega. Room pe tere dogs, cats, Swiggy/Zomato ke dabbe, infi coffee, aur smoke sab nazar aati thi (fukna band karde, cancer ho jayega). Bro ko leke bhi kaafi rr karta tha tu (woh hai hi aisa) and tere untimely 'your mom' jokes aksar yaad rehte hai :P. ML mein passionate toh hai hi, so life mein machate rahiyo. Keep in touch.

Maitrey Gramopadhye : Patil Bro!! I'll always remember walking into your room seeing 2-3 screens, 2 models training on your laptop and friends on your phone. Thanks for all the help in AI/ML and life mai aise hi ML machate rehna. Tera cats love bhi humesha yad rahega mujhe and of course, stacks of pizza boxes and rows of beer bottles bhi. Bas thoda cheeze phakna kam karde :P, bro constant fear mai rehta tha. Keep in touch :)

Siddhant Jadhav : Yo bro... First of all, MI MI. Mood Indigo nahi. Mumbai Indians 🟡. Freshie year me mile the. Bohat mafia aur counter strike khelte the. Aur baadme moodi me bandiya bhi taadi hai saath me 😊. Mess me baithe aamras peete hue ipl dekhne ka maja hi aur tha. Also, Wankhede pe ind vs sl was fantastic. Kaafi moments hai acche sath me even in Bangalore. Ek baat toh pakki hai, i can count on you to support mumbai indians forever. Baki toh sab team badal lete hai. Ab bas ek ipl match dekhna hai sath me. Baki milte rahenge. All the best

Gurparkash Singh : Yo Patil! Yes, our Mafia games and Cricket and ML discussions were always very lit. You're a very philosophical and senti person, and yet you're always calm and composed. I've had some of the most memorable conversations with you. I still remember your speech on our way to H13/14 about how cool Math is and if you really wanna pursue it you should give it all. I was also really impressed by your poetry and writing skills. And yes, MS Phones were awesome! :P :P

Abhro Bhuniya : Bro mai bohot dara hua hota tha. Akela lagta tha, CS me koi dost nhi the. Par second year me tere saath baat karne laga toh ... aisa laga finally koi mila hai jiske saamne me khul pau aur woh meri situation samjhe. Bohot kuch seekha hai yaar tere saath, bohot saare naye experiences tere saath kiye kyuki tu itna exciting tha, itna adventurous, har baar mujhe kheech ke le jaata tha. Aur dikhata nhi hounga par mujhe woh bohot pasand tha. Milte rhenge, baat karte rhenge, khelte rhenge. Aur bohot adventures karne baaki hai. Chal ph**te hai!

Sahil Saiyad : <3

Atharv Nandapurkar : Patil! Yaar, last year kitna kam mile hai apn. Uske pahle ke saare memories toh mast the. Yes, apne wing wala Mafia is the best Mafia that I had ever played. I hope phir kabhi apn loh rahenge yeh khelne. Tere stories sune hai kuch bandi wale, bhoolne layak nhi hai woh. Tu shakal se kaafi shant lagta (lol, yeh mera first impression tha), but hai toh nhi bilkul. Good luck bro for your future

Harsh Siloiya : Yo, I can't imagine ki kitna irritate kiya hoga tujhe during the last 4 years with constant acad doubts and Kandala ke texts :p but thanks a lot for being such a great friend. Anyway, future main discounts dena mere Flipkart orders pe and stay in touch!

Ishan Tarunesh : You are definitely the person I disagree the most to on various things lol but it's always a healthy banter. Seeing you it always felt as if it bothers you so much that no one really understands you. And I did want to be that person. I wish I could help you figure out some things that were troubling you through conversation. But somehow in last year I was busy with BTP and you with placements, CSGO etc and time passed really fast. I just have one thing to say - Slow down, you're doing fine, After all Vienna waits for you.

PS - Bollywood songs bhi ache hote hain okay

Sachin Tak : "Tu tension na lae tu macheya bhai life mae". I really miss our D1 batch.
