

ANMOL KAGRECHA
Electrical Engineering

Anmol Gupta : Hi Anmol :P 'Perseverance' is the word that comes to my mind when I think about you. I've seen you work immensely hard right from first year to come to this stage, and you have achieved a lot! Easily one of the most well-dressed males on campus XD wearing shorts to the department was almost a sin for you :P I really enjoyed all our discussions in SSRL in the last 1 year, helped me get out of my echo chamber and have civil discussions with someone with so many opposing views. Also happy to share a mutual aversion to ML with you :P All the best for Stanford man, you'll slay it there!

Krishna Subramani : Kagrecha! I've enjoyed having you as a classmate in EE man, I've learnt a lot from you :) I respect that you do whatever you take up with 100% dedication and passion, that is really appreciable! I'm sure you'll rock on at Stanford as well boss! Good luck, and enjoy grad school !!

R Aditya Narayan : Hey man. Though I don't at all agree with your with your political beliefs, I think you're a chill guy personally. Sad that we couldn't do scenes post admits. Kill it in Stanford and stay in touch!

Sumukh Vaidya : Sir, It's been a pleasure interacting with you, given how nicely our viewpoints match on certain things :P. You've been an inspiration in terms of hard work and solid fitness, keep that up. Stanford me fodna, we can hang out together when I visit the place. All the best man!!!!
