Sarthak Nijhawan : Up? :P Ik I can't do justice to this with just 700 words. We shared a hell lot more than just a room. From waking up at 12 PM in 1st-year & nonchalantly agreeing to bunk the class to coming full circle & doing the same in last year :P. From pitying DDs initially to becoming one of 'em eventually. Our unwavering mutual distate for alchohol :D. Those late night elec bitchings & micro-project night outs. & those only-for-the-fans guitar gigs, annoying alarms-u growin' heedless of 'em (too), bata's lifestyle analysis, Pre-Day-1 funny mocks & so much more. Honestly man, can't thank u enough for putting up with me & my tantrums patiently for so long. Insti life couldn't have been so much fun w/o

Yash Shrivardhankar : Omi! It was great knowing you man! All those marathi talks in SATlab and having similar taste in music were great! Parat bhetlo ki Mamledar la jau bara ka! Take care and stay in touch!
