Abhinav Jain : The real astrophysicist! You are an indispensable part of the polygon now, you can never get free from it :p Jokes aside, really glad to spend time with such creative, quick thinking, and sincere person :-)

Sanskriti Shah : Jaaan, jitna likhu utna kam hoga tere liye. A constant support throughout these 4 years, Har exam mein tera pure wing k liye mummy ban jaana, but then masti mein bachha ban jaana, every few hrs ek dusre k room mein jaake pareshan karna, apna pagal pan, apne asli pagal roop me aajate the hm sb . You have been one of the most sincere, fearless and driven person I have met in insti. Bas ab zyada alikha nai jaara, warna ro dungii. Tera motivate karna, plus time waste karne pr daatne :p waali memories bohot achese sambhal k rakh rhi hu me apne paas. Stay the same motivating, inspiring, amazing person you have always been! I love you!!

Vaishnavi Gupta : ham to mostly mess me hi milte the but engaging in any discussion with you over lunch/dinner was fun, tu kaafi honestly, straightforwardly apna opinion rakhti hai which is one of the things I liked about talking to youall the best and touch me rehna :)

Aditya Patki : Shayad apni pehle baar baat kabhi aur hui thi, but first major experience toh yehi hai ki mai woh audience me baitha (soya) tha jisne teri 70 slides ki ppt jheli thi, mini project waali. Tab se tere kaam ki depth ko mai samajh gaya. Uske baad ke agle 2.5 years me tujhe kaafi jaana maine. Team canteen dinners, ICSS, clean room talks aur payload pe saath me kiya hua kaam hamesha yaad rahega. Sorry agar ekhaad baar tum logo ki gossip pe tujhe daat diya ho toh, I did not intend to hurt anyone. Certainly, the second favourite thing to you after gossip, would be Physics, and I am sure ki jis grit se tu kaam karti hai, usse toh tu pakka ek machau scientist banegi. All the best!!

Anirudh Singhal : Hey Riya! I remember you being extremely hard-working and determined from our time in IITBSSP! I definitely appreciate your efforts in making those ADCS meetings more understandable. All the best for your future!

Rupesh Leburu : Hey fellow potterhead! We truly ran out of ideas to pass the time in those labs didn't we? You're so uniquely bright and hardworking, that it makes me envious. Thanks for being a part of my insti experience

Aniruddha Ravindra Ranade : Satlab ki sabse sincere ladki! From the mini-project presentation of 70+ slide on star trackers to presenting your own astrophysics research at several conferences - you have had an amazing growth curve all along. You have been this strong pillar of the ADCS. You are a very kind person. You are one of those few, who can empathize really well. I am sure you will do really well, as you step into the next phase of your life. Physics padhne ja rahi ho - Nobel Prize leke aana :D

Srajan Kumar Verma : Happy to know such a nice person like you. Will always remember 1st yr wala cricket :))

Bhavya Garg : Hi wannabe sautan 😊 insti me pehla interaction tujhse hi hua tha isliye pehli post tere liye. Apna football mast tha and kalsubai trip will remain most memorable. Not because maine taang tudwa li thi but because puri raat tujhe chup karne ki koshish kar rahe the but tu chup nahi ho rahi thi. Hui bhi to tab jab mujhe pillow bana kar soyi. You are one of the purest and loudest hoomans I have ever met. Wingie na hokar bhi tu hamesha wingie rahegi. Apan ne 4 saal ek hi topic pe discussion kiya hai more or less and aage bhi karte rahenge 😂

Animesh Singh : Googly id the best word that describes you :P. Smile karte karte daat deti hai joh. Ek sec bhi waste nahi hone deti - itna high productivity level kahan se aata hai. I miss the carefree days in workshop where we played "chidiya udd .." when Amar was on the lathe machine xD... Aisi hi hasti rehna par zyada daata mat kar :P . All the best for your future life as a star researching about other stars :)

Rohit Banavath : Though we had less talks and very less interaction, you have that 'very kind' vibe oozing out of you. its a good and rare quality in people. keep that up. and i'll always be a text away if you need a pill of 'badass-ness' :D chill out and all the best :)

Naveen Kumar Yalal : I couldn't forget the way you wave "Hi !" A lot of expressions on your face, which couldn't do justice to how you wanted to wave. Riya! yr I'm just a very stupid and crazy person, and you are well YOU(awesome). Bhai ke liye kaun poori batch ke saamne gol gol chakkar ghumke football khelta hai yr, obviously someone very courageous and crazy as you. Hats off to you! You'll find your "Knight in shining Armour" soon.

Pattisapu Divya : Riyaaa! 3rd year winters were the best. Everyday I'd wake up and you'd snooze your alarm. Everyday you were forced to listen to me talk and I thoroughly enjoyed your reactions. You stole my data, you 'Evil Woman?' and in the most inconspicuous way. And the lab sessions were fun. All girl squad in one team. I can't imagine Ahmedabad or Mech without you. Ever so enthusiastic and bold and amazing! Thanks for all those amazing times you've shared with me. Please keep in touch!
