2020

Savaliya Nikitkumar Mansukhbhai : You are always taking a nap when I call you or I need your help. It is the best to have a friend on whom one can yell at any time any where and that also without no reason. You are my that best friend. I have never seen you angry even after I shout at you without no reasons. You have a great character and personality. I am lucky to have a friend like you. But you are always stressed at every occasion, be it exam, be it MTP or be it placement preparation or talking to HR. Overall you are a great person with kind nature. Wishing you all the best for your future. Don't forget us after reaching a top position in Mahindra.

C Sreedharan Ruben Sanu : I was proud to get into IIT as a sponsored student, but I was stunned when I realized the fact that I don't even know how to use scientific calculator properly.....credits to u , I've mastered it now....🤔🤔🤔🤔. I still remember the days when u wasted ur time before exams (early mornng 3), struggling to teach me basics of sin theta and cos theta...🤔🤔🤔🤔 u started from scratch....wasted hell lot of time in me and the result is I cleared my semesters ...😊😊.. Tried a lot to make u drunk , but always failed.....🤔🤔🤔 I still fail to understand how u could resist drinks.....anyways we always cherish this timea time which I never got in my academyall the very best ...stay connected.....

Arpit Patel : Missing late nights in the lab, Late night cravings and also Race from the department to the hostel, Fall promises of early morning walk and we both miss.
