If you get the chance to meet freshie self again, what is that one thing you will tell him or her?

I would tell him that it's not going to be easy, but you are gonna make it through, and you are gonna enjoy it, and cherish the memories for the rest of your life. even though you don't realise it now, once these upcoming moments become memories you will know their worth so live full alright. Do your best at whatever you do here, and try to eat good ☺.

**Prakhar Jain :** Broo... you are love. You have always been so supportive and encouraging, that it always felt nice hanging out with you (except the time I got beaten because of your idea, or you spilling secrets while drunk). We had so much fun together man. Sorry for the non-ending jokes on your hygiene or your job as a navigator for the Rajmachi fort or your old age, I had so much fun with them. You are a good judge of character and your wisdom about people, helped me out a lot, dealing with people. Best of Luck for your future man. Stay in touch <3

**Animesh Singh :** The Tegra Guy ... The go-to person for any technical problem that the team faced. You have a wide range of knowledge and the days we spent together in the team were amazing. It was a little sad that academics caught you and I would have liked you to be in the team longer, but anyways - you are an extremely fun loving person behind a calm face. I learnt a lot from you. All the best for your future and keep enjoying life as you always do :)

**Darshan Tank :** Awanish chacha, you are one of the most down to earth person I have met! One can easily talk hours with you regarding topics varying from psychology to deep learning. Aur tere aur Ranjan ke sath random Hiranandani, Dmart and Rcity trips yaad rahenge be. Bas apni capacity ka pata laga le :P Chachi kab aa rahi ye bata, umar ho gayi hai ab to xD Coco ke pics aur videos bhejte rehna, Stay in touch <3

**Pramey Singh :** Your journey in insti has been really inspiring. Your door was always open when I needed to talk. Thanks for everything. See ya biatch.

**Satyam Mohla :** Man I have been pseudo part of your H7 wing since long and we had interacted in the past but I really got to know you only in the past one year, when we started working with the same guide... no wait when you helped me solve my problem and told me to work under biplab sir, life has never been same because of that. Thank you. From our countless hours of bakaring about life in lab as a group to working hard, we have only become stronger as friends and I am glad I had you as my labmate, as my friend.
