**Harishankkar GK** : best lab partner ever! u at times irritate me but u always had a point...it took some time for me to realise that...u are a very understanding guy..I enjoyed my lab hours and our calculation sessions...thanks for coming to my home..hope u had a great time...may you reach great heights in your life..all the very best!

**Rohit Kumar** : Karnekar sahab, the cigarette man. I know u are very good at study. I respect ur determination and endless self motivation. I still remember that ur girlfriend wali story, that was really heat touching. But u proved that if one want, can do anything. Sometimes u feel low, it happens bro with everyone, don't worry much and just enjoy the present. And please ye cigarette vgra chhod dena bhai and I am sure u can do that. I know I used to tease u many time that was only because I didn't want my friend to smoke and doing something bad. U have good talent, I hope you will succeed in your field, string Theory and will give the world some beautiful results. Keep smiling and moving, All the best bro..

**Chigicherla Venkata Sai Prasanna** : Hey Manoj (Kronecker Delta) ! I found you as a familiar guy on our first encounter in front of convo hall with Sneha. Liked your clear pronunciation while speaking, straight to the point discussions and facial expressions of surprise 😄... . I had a great time with you and Suvas that too in sem 2. Always keep up that determination you have and have a great time ahead.
