

SUBIR PAL

Chemistry

Yearbook  
2020

**Suman Das Adhikary :** One of the most talented guy in our "Bengali Gang", popularly known as "Phyal sir" 😊. We always appreciate his fundamental knowledge in chemistry. You are my inspiration because just after the lunch you became ready for the lab the potential and hard work will definitely paid off. The most memorable think of us is, you never said "no" if someone ask you to put order on peetuk... 😊 I will never forget those night tours, "Annar dokane adda", pandel hopping and all those moments we spend together... Be happy and I am sure you will become successful reseracher in your life.... 🥰
