Jasmine Lokesh K G : Wallmates forever!! Always had our encounters near the washroom sinks. Artistic.. Beauty with brains (ladko ke dil ki dhadkan tez karne waali).. the one with OCD.. confident.. Cool - you are a complete package! Still I replay our karaoke sessions and burst out laughing!! You, me, Matru and Anas - CC lab means a lot for us all. That's where I struck a chord with the Ocean Engineering idiots. I think I've spent more time with u guys than my classmates in the first year. To be honest, I have always wished to be as free spirited as you guys because being with you guys was FUN! Well, placement me bhi macha hi diya (Secret nerd!!)

Vinay Maurya : Hey Co-CC!!! Hamesha yaad rahega apna CC wala tenure. Salute to your efforts that you did put throughout the year to get the companies for our department. Baki cluster treat aur PO ki apni memories to yaad hi rahegi hamesha. Placement mein to tune waise hi machaya hai. Aise hi smile karte rehna aur khush rehna. Be always in touch:-)

Neeraj Kumar Burugupelly : Hey CC..! I can still remember how tensed you are on the day of our placement interview and how am trying to divert your attention (you can call it annoying) . Glad you got a better placement. Quite open-minded, cheerful and Easy Going girl. Thanks for being the CC. That early morning run around the campus :p, Jazz's bday party, Essel world (snow house), BnB Pizza hangout (we still owe you one). It's always fun being around you. Keep smiling. All the best :) P.S. Missed out PG Cult performance :/

Mithilesh Patel : U are most rational thinking girl of our branch. U just handle all the jokes and sarcasm so easily, That is fascinating. U made environment of our communication group so light😊and presentation part was also light. I wish to go for any trip with your ocean group(your ocean people are very calm)

Matru Prasad Nanda : Growing apart won't change the fact that for a long time we grew side by side, our roots will always be tangled.
