

SHRAVANI JOSHI

Computer Science & Engineering
Academic Council

Yearbook
2020

Aditya Chalishazar : I think the most striking memory I have is of talking during orientation (handling the slides) and the Teacher's day, while we were distributing those Tulsi plants. Thank you for giving me a few chances to better my Marathi conversation skills! And Thank You for all the efforts and help towards the Council!! Stay as awesome as always! All the best! Stay in touch! :)

Himanshu Bishwash : I very clearly remember the day I called you up to ask about the interviews and you mistook me for some foreign university correspondent :P It was great working with you in the council. All the best and have a great life ahead of you.
