

ROHAN AGARWAL

Civil Engineering

Yearbook
2020

Shubham Jain : Hi Rohan, I think the way you spend your time will always remain a mystery to most of our batch. Though we all assume that you only study whole time, but I kinda doubt that. You know how much I have to push myself to get you speak, I hope you realize it. Just open up with everyone and life would be much fun. Anyways, I know you are a very dedicated and hard person, so just open up a little and keep up the work and I'm pretty sure you are going to get success in whatever you do. Cheers!! :)
