If you get the chance to meet freshie self again, what is that one thing you will tell him or her?

Time flies even faster than you think!

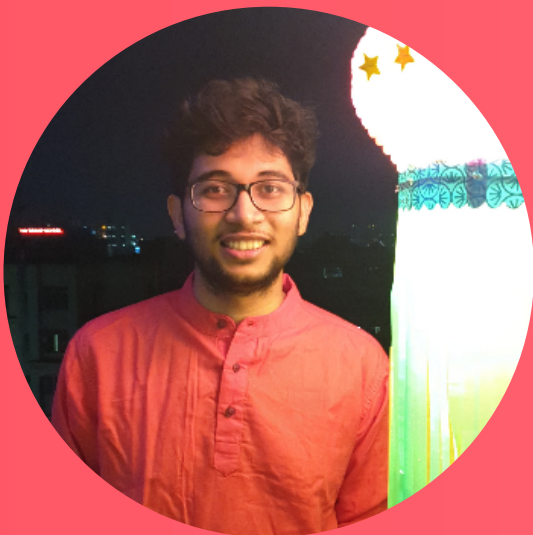

Yearbook
2020

Shubham Punjabi : From being some guy whose roomie was wings's ED TA to one of the bestest of friends, we have come a long way man. Infinite outings would be the right word I guess, I am Hiranandani visits to south Bombay ke posh colonies mein ghoom ke wahan rehne ke liye kitne saal kaam karna hai estimate nikalna 😂. Europe trip mera miss ho gaya but Europe abhi bhot bacha hai tera bhi, har saal atleast ek tour to karenge yaar pakka se! I am hoping to continue sending my poems for review purposes and getting awesome recommendations on books 🥰

Veerupaksh Singla : Bipul! We first met at the debate club orientation 😊. And I don't think either of us went back 🙋♂️ (sorry tanny). Fir bc karke chemical me aaye dono, and you have been an amazing support system throughout! DIC saath me, eccentric profs ke discussion saath me! Ek hi summer me 2 interns _/_. 2 Baar GRE deke job karne ja rahe. Kabhi hame yaad karo to aa jana MS karne! Honda is lucky to have you, remember what I told you about Bajaj! We have had some interesting discussions, and hopefully karte rahenge! Also, thanks for enlightening me of the fact that TP means time pass and not transport phenomena 🤔🤔

Lovesh Gupta : Saw you for the first time in the board meet. Sadly, could not get to work with you much. Aapka Monologue kabhi nhi bhulunga me, you and saman really taught me how to be sweet and sassy at the same time. aapki ek book h mere pass, mile to le lena <3

Atharva Jaipurkar : Bhai Vipul! You and marmik are some of the first friends I made in Insti! Tere sath geeky conversations karne me kaafi maza ata hai 😊 I truly admire the way you try understand the concept behind everything! And tera CITI se US jane wala move to bhai! Stonks 📈 tha ekdum! I have really heard a lot of admiration about your work from the RISE people! We never got to work together on a project, and I really wish you had joined the team sooner! Honda me macha dena♥️ Take care 😊

Time flies even faster than you think!

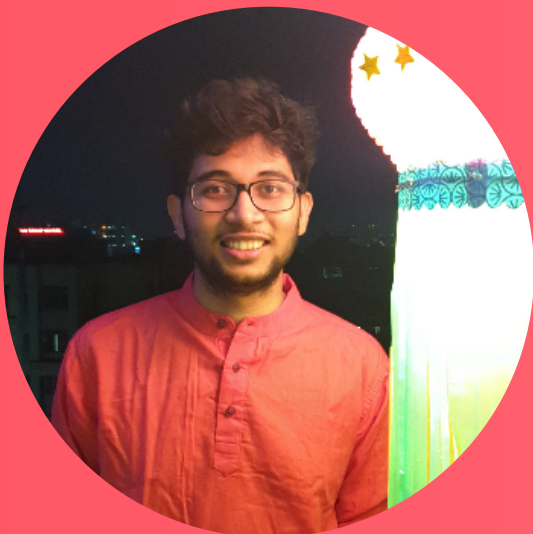

Yearbook
2020

Anant Taraniya : Phir kabhi milna raat ko chalte chalte, Library ke peeche panchayat lgayenge!

Saman Siddiqui : Vipul, you are a gem of a person! From the day one in the tutorial batches where you slept through half and taught more than the TA in the other half (Remember ? :P), you've been someone I've admired <3 Over the last year, we've gotten to know each other better and even though that's a short period of time, I know that today, I can trust you with anything <3 Your honesty, your ability to give the best advice and your desire to help people, makes you a star, and I'm sure that 20 years from now, I'll be telling everyone the story of how I met you :P <3 I can't wait for this lockdown to end and for us to meet!!

Prathamesh Patil : I don't know what to say. All those memories come back and really overwhelm me. I have seen you trying to write a novel in the midst of an endsem, work for AUV, do 2 interns in a single summer. I will miss all those movie nights, the long and deep arguments and debates on random topics, randomly wandering into your room and making it my home when i felt bored. I don't know what happened between us that we grew distant but you will always be the friend from the institute to whom I go to help in a crisis. Thanks for helping me through my breakup and have a wonderful journey to your dream job.

Vedant Ladha : Man, how I wish we'd have interacted in H4 as much as we did in H18. You're one of those people who everyone can get along with and have amazing open minded conversations with. Tu nahi hota toh ye sem 1-2 midsem toh pakka miss ho rahe the mere 😂, thanks for waking me up. Those all nighters we pulled off every single week, only to get lashed at the next day were frustrating, yet brilliant. Remember that weird conversation with Dhvaj which he concluded by saying that you're into... (Probably shouldn't mention it here lol)? When all of this is over, let's go out for that treat (irrespective of who has to give it, it's mostly going to be you tho 😊)

Abhishek Rawat : Yaar ye word limit kam hai boht zyadaa.....Damnn Vipul bolu, Penguin Bolu ya konsa naam bolu omkar ne aur maine itni stories bna di teri ki konsi asli hai ye hee bhul gye. Shit yaar freshie year mei toh tu mazdoori mei hee busy raha isliye apni baat zyada huyi nhi except that ED incident Trochoid waala xD. But I really thank god that 2nd year mei groups randomly allot huye thhe firse and I got to be with you and Goyal and Dhvaj. Seriously cant remember any group I made without you. You were the unsung hero behind those doubt sessions and me asking the same doubt even after you explained it to me million times. Bhai lab mei joh bkchodi karri h dhvaj k saath milke joh group work thha apna kabhi laga hee nhi ki kaam karre hai. No doubt u were the negotiator of the wing and also the poor decisions of food or places we went was blamed on you. Never gonna forget waking you just a minute before lecture and seeing a supersonic vipul rushing towards lecture. There are tonns of memories which I cant say in this small word limit. No matter where we go we will always be A8b. Bass ab milte hai ek baar meri hisse ki treats aur bets puri karni hai aur ek baar shaalimaar bhi chalna hai firse....Miss you bro and miss your "Ehh Mee Pan"

Varun Sule : Vipul! How do you manage to do so many things so perfectly, and at the same time you've been so nice to everyone, be it that they're listening or not. I regret not having connected more with you in our first year tut batch. Your passion for challenges is unparalleled, I was impressed by what you did last summers. It's been a fun ride with you in Insight, I'm still learning from your monologues. Keep on having endless arguments with me XD. Let's meet up once before you're off to Japan!

Syed Zakiuddin : Vipul!, the most enthusiastic guy. Bro!, kaha se shuru karu. You being the part-time TA of our Wing and clearing doubts. Maybe because of it, most of us wingies got a habit of not attending classes as we know you will be there to help. Before every exam if I would have any doubts(tough ones) I would know the address to go. Apart from helping in Academics, you helped me with some personnel issues as well. You always give the best suggestions. love you! take care!

Yearbook
2020

Naman Chindaliya : Vipul sama! The person I like to irritate the most. You can never lose a debate and I love subtle self-praises you put in the conversations. We used to compete about everything. I loved debating with you. Also, once I pitched my company to you and you agreed for fundings, lol, one of my memorable successes. Thanks for the placement treat and sooo sorry for the Europe trip :P. Great wingie and even better friend.

Pushan Bal : I really really wish we got to interact more. Last year me we were neighbours and that was when I really got to know you. Remember Kala Ghoda jab apna kata tha! I have worked with you on an assignment and I know how serious you are when it comes to work. You are very specific about the minor details and I really admire that about you. HSS ka presentation was an awesome experience. Hope to stay in touch. I believe the correct phrase is Sayounara Vipul san.

Pushkar Saraf : I'd like to start by apologizing for all my antics that irritate you. :p Me saying this will also be considered an antic that will irritate you. hahaha XD I will miss us watching movies together at night and then later decoding them. I am so grateful we met that day in the ED lab. I love your advice and have come to appreciate it. Tu jaayega tu hotel mai khana kaun order karega bey ? Who will rally our wing for those amazing outings ?? Do you remember that late night on H18 rooftop we were talking about being happy in our lives. I think that you are an amazing happy person vipul and nothing/nobody can take that away from you. Hope you stay the same excited spontaneous person you are!

If you get the chance to meet freshie self again, what is that one thing you will tell him or her?

Time flies even faster than you think!

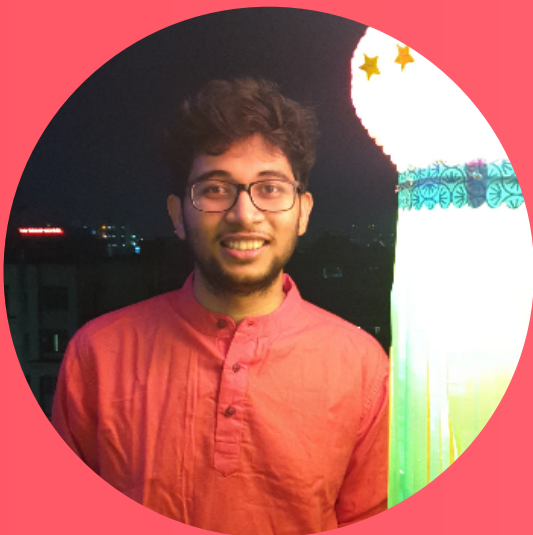

Yearbook
2020

Mayanka Medhe : I'll never forget how I got to know about you for the first time. Pushkar painted a rather intriguing picture of your personality (I'll spare you the details :p). Kimi no na wa was one of my best movie experiences, all thanks to your charming skills of making friends with the people in line and convincing them that we had been standing there since the beginning XD. You are so easy to talk to especially since you always have a smile on. Your quirks like your uncontrollable laughter, hairstyle tips and "locking" your fingers in the lock always make me laugh. Thoda reading speed vadav tu and don't trust people so easily in ludo XD. I'll beat you in chess next time okay :p. See you in Tokyo, Loverboi :p.

Trishant Roy : Apna Vips! First year kaafi mast tha: glider wala competition (Tab Rohan tha XD), XLR8, mini-militia, cycle races, mess ke discussions (about Gandhi XD)... Apne movie nights <3 tere movie recommendations :P. Tera friendliness and give-up nahi karne wala attitude :) (woh Asphalt wala game :P). Sorry maine kaafi baar plans ditch kiya :(Thank you for everything <3 (sahi me). And "A matter of honour" (<3) padh liya... next recommendation please :)

Kale Ninad Naresh : Vipul bro.. i always liked ur presence man. Kafi mast banda hai tu. Freshie year me tere debating skills dekhe the bro team discussion me.. next level bro.. Time we spent together in team specially in summers jab infi nighouts chal rahe the was really good. insti me jaha bhi milte the small talk jarur karte the ham. I wish aur time spend karte ham. All the best for ur future man machate rehna

Himanshu Goyal : Vipul! ♥♥ Bhaaiiiiiii!! ♥ You're the most calm, hardworking and down to earth person I have ever met. 😊😊 Countless times you motivated our Lab Group (♥), and saved our asses in the presentations and viva. 😂😂 I am glad you came to US, that metro incident is unforgettable. 😂♥ You never lost your cool (expect the time when you lost foosball match from me 😂🙏). I love you bro! ♥♥ I will miss those unproductive lab night outs with you. 😊♥

If you get the chance to meet freshie self again, what is that one thing you will tell him or her?

Time flies even faster than you think!

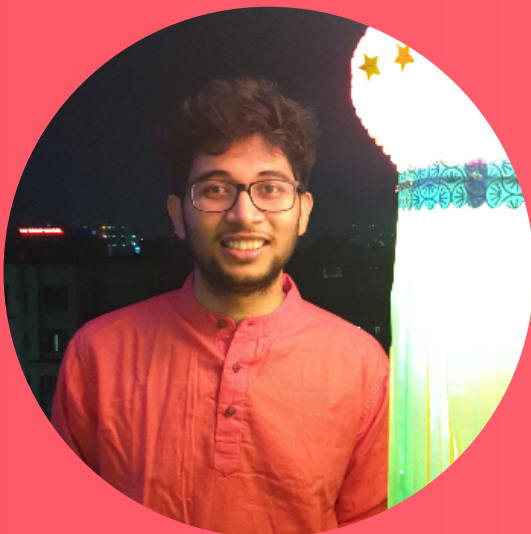

Yearbook
2020

Pujan Biswas : Yo! Ever smiling Vipul san. Waise Japanese vibes bhi le aa thode XD Apan ne mess mai hi maximum discussions kiye hai. Remember Transform Maharashtra? Kya world-class team thi na XD Tera tech enthu remarkable hai and I really respect that along with your ability to maintain calm. Japan mai jaao tab kuch alag macha ke aana and humara time zone almost similar hone waala hai toh bhoolna mat. I'll miss having that fun guy who is always ready for a chat with saunf in his mouth around:P Yours, Bisso!

Pradnesh Patil : Yo Vipul,I was so relieved when I found out that we are gonna be on the same floor as I would have someone I know already.We have come a long way from the competition in first year to finally going on the Europe trip.You were always up for the most spontaneous things.You have always supported me in everything I have done and also I knew I could rely on your amazing advice. (Add those to the book you had started writing ;p).Thanks for all the movie sessions(in which I would sleep in the first 5 min),the overnight discussions we have had on the most random topics, the amazing outings we have had, and I would never forget the efforts I put in to improve your Marathi.Keep smiling and stay the sam

Abhro Bhuniya : Vipul bhai! Sorry I couldnt spend more time with you man! You are the friendliest person in insti, who always smiled the brightest and had the biggest heart! Wish we could meet, go for a trip together (I know you invited me to Europe, but I am bound xd). Hope we meet again.

Akshat Raj Lad : Aapke monologues, and Mohan ke saath "friendly discussions" hamesha yaad rahenge Vipul! Machate raho, and bolte raho :-P. All the best for everything which is to come!

If you get the chance to meet freshie self again, what is that one thing you will tell him or her?

Time flies even faster than you think!

Yearbook
2020

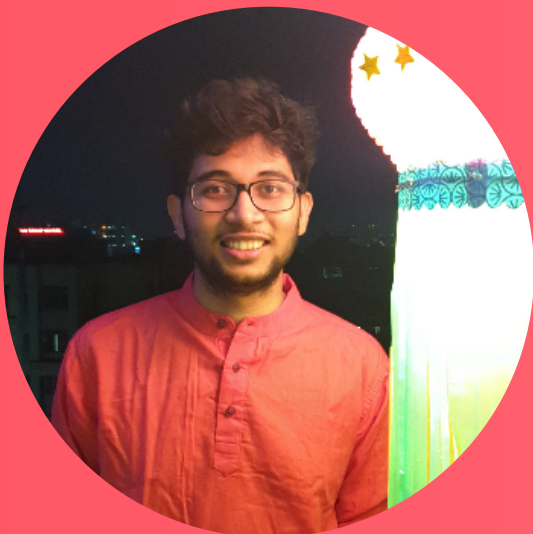

Yashaswini Chauhan : Aapke in-interview pep-talks have been the best so far xD Koi bina bhand hue handing over pe itna kaise naach sakta hai is still a mystery though :p

Puneet Kaur : Kitna machayega re ladke bas kar ab toh 😊 idk how we became friends - maybe S1 mein Bellare ka DIC. But it was really nice knowing you. Bhai tera resume tha mere paas placements ke time dekh kar hi complex ho gya _/_ classes mein bhi dhyaan se padhna and bakchodi bhi karna kaise kar lete ho xD You're a very sweet and energetic person 😊 Honda mein bhi macha dena ♥ stay in touch!

Cherub Kapoor : Vipulll. You know the feeling when you know you can trust someone and feel safe around them? Woh feeling aati hai aapko dekh ke. Okay don't want to end up writing a creepy account that you'll laugh at throughout your life :p But yeah, I'm super glad that we could share the same tenure, and I had lotsss to learn from hope. Hope you keep killin' it wherever life takes you! <3

Aditya Venkatraman : Hey Vipul. I really respect and admire you as a person and I think you're very genuine and kind to everyone around you. I remember we both were few of the people who would come late to the classes and I used to see you behind or in front of me rushing on your cycle which became a funny mental note for me back then :P All the best for Japan and stay in touch man!

Aryan Agal : Yo Vipul! Honestly we've not interacted much, apne groups kabhi same nhi thhe(except Trishant maybe). With my previous attitude I might've passed up writing this. But dude, you are so happy and so nice, and there is literal joy in your voice all the time. Tere saath interact karna was a pleasure! And you are pretty damn smart. Very happy for you for cracking Honda! Hope you keep spreading happiness and keep infecting people with khushi :). Do stay in touch bro!

If you get the chance to meet freshie self again, what is that one thing you will tell him or her?

Time flies even faster than you think!

Yearbook
2020

Bidish Ghosh : Vipul bro initially apni zyada baat nahi hoti thi fir tu BC maarke Chemical me aaya, and then apna legendary department trip. The most vivid memory I have with you would be jab main aur tu Gudi ko lecture de rahe the about how he can improve his pedagogy in Process Control xD Wishing you all the best ahead! :D

Arjav Shah : Vipul!! I've had some of the best (and longest? :P) discussions with you! It think it all started with Psychology and then one of the interesting Gandhi articles you'd sent? Interacting with you over meals was fun & took away all the worries! I am glad it happened more often in the final year :) You've come across as an extremely smart, thoughtful and jolly person! Machane me to koi kami nahi hai - from switching interns in no time & then having 2 huge offers in hand! Stay the same humble person you are & hope to stay connected! Wish you the best with everything! ChEers! PS: Can I also expect you in the US at a grad school after a few years? ;) :P
