Arpit Kedia : Gentleman, kind soul, considerate, there aren't enough of these adjectives for you, Ganesh. You were always the go-to person for anything we didn't know, be it about insti, Mumbai, news, facts, everything. So many places in insti which I explored with you, including gatecrashing that conference lunch xD! I was so excited when one of your mails came on the hostel forum, cause I knew you would be giving a proper dressing-down xD. You see the best in people, and although you may come across as serious to people, I enjoy your humour so much. I was over the moon when you told me about your PhD. All the best, and let's keep in touch. See you in the US!

Arush Gupta : Hey bud! :) You're the sweetest guy in our batch that I've met. I wish we would have met a lot more than that man. We'll always always always stay in touch. During the times we interacted, I couldn't help but notice that you came back up so cheerfully and so much stronger than before man, and I can only imagine the magnitude of efforts that you would've put in. Never lose heart <3 And hey, science and research are just another way to contribute in spreading love :P we build stuff or theorize building stuff that will majorly help someone in one good way or another - nothing to admire over there - that's in all of us, you just need to see it in yourself.

Shreyas Likhar : Ganya bhai... Roll number wale padosi♥... First year ke lab se lekar kitni saari labs sath me kari hai apan ne. CS wali labs me attavar ke saath apan mast baithe rehte the. Teri handwriting ka to main shuru se hi bada fan raha hu, baki to tu machau hai hi. Apna kitna jyada interaction hua hai mai soch bhi nahi sakta. Always silent, sincere, humble helpful and smart kiddo. Ek library wali memory yaad hoti. Khaane ja rha hu bolke laptop mere bharose chhod gaya tha aur 3-4 ghante tak wapis hi nahi aaya. Phone karne ke baad bolta hai neend se jagane ke liye thank you 🤔🤔. US jaake bhul mat jana dost. Stay in touch. Love u bro ♥♥♥

Anmolpreet Singh : Kaha se hi shuru kare dost! Started out journey with becoming 'cooling bros' in IITB Racing Team. You had taught me how to save money on travelling, and how to explore stuffs. I love how you keep exploring stuffs man! I always appreciated your efforts in knowing cool stuffs. There is an adventurer inside you. And yes, you did troubled me a lot during our JDE tenure, but I guess it was no ones fault. Our late night walks to the H12 are surely gonna be missed buddy. Will miss you. Take care and aise hi PhD me machate rehna!!!

Rupesh Leburu : Hey dude! The last year sucked for a lot of reasons. If placement season is at the top of it, not being roomies would be right there tied with it. We seemed to be from different worlds but that just meant we complemented each other quite well. I was(am) fascinated by your experiences and your energy. Keep aiming high and keep aiming different. Stay in touch and I'll wish you all the happiness and love.(lol)

Gurparkash Singh : Hey man! You're one of the coolest persons that I've met during my insti life. If there's one person in insti that I look up to, it's you. You have all the qualities that I aspire to have. I really enjoyed it when you would come to my room and we would always end up having long discussions about random stuff. You are infi infi knowledgeable and you just have an amazing way with words. And you're very helpful as well (thanks for the room decor!). I gotta thank Vedarth for moving in to the room next to mine which made all these interactions possible.

Apurv Tiwari : Gannnnuuuuu! <3 A nice kid super enthu for roaming around the insti just like me and super enthu for random trivia about insti and also of the betterment of the insti, and knows what soneri baug and koldongri is :P It is so nice knowing you, and we need to have a coffee with dosa soon :P

Anupradiksha Rajan : Health policy me mene mehnat to ki thi, although tumlog vo mante nahi, although mai manti ki Obamacare wala ppt me to tune hi akele kaam kiya. Tab katane ke liye (tune sorry hatane ko bola, isliye hata diya, aur vo sorry anyway bas formality ke liye tha). Tere bare me jyada nahi pata mujhe, kyunki jo bhi conversation hota usme mai hi bolti thi, either tu bahut shaant hai ya mene tujhe kabhi bolne ka chance hi nahi diya :P Tune apna last sem me Gre(336) dekar Phd ki admit li yaar, ye sab nahi kar pate. Washington me jakar bhi aise hi machana!!! Good Luck

Anurag Bhaskar : Brooooo! We ARE wingies! Still a lot of places left to go! Aur bhi tech tips ke liye hu mai yaha XP! Always fun hanging out with you!

Naveen Kumar Yalal : Ganny bhai! you were a very shy person to come up and talk to someone, I've seen you grow from that to the amazing person you are today! You always got brilliant logical plans on how to tackle everything, from 'getting tickets to go home together' to 'how do go to vihar'. Thanks for taking me to Vihar mama! You sure are one crazy head, the adventures you've done through out the insti I guess no one could've done it like you. Also all that "Endi mama idi?" during labs was always a funny discussion. Lets keep discussing and going on crazy adventures together mama!

Vedarth Choksi : Ganesh bhai 💖! Its safe to say that I have spent the maximum time in insti with you! Our thoughts match to a whole another level. All those sleepless endsem nights where we procrastinated together to the last moment possible 🤪. All those interesting discussions 🤔. Cycling trips. Showing you my memes. Bitching about courses. Sleeping in classes. Crying during exams. Promising that we won't make this mistake again. And then making the same mistakes again 🤪. Becoming BBC conveners 😊. One thing I can say is that we motivated each other when one was down and I COULDN'T have survived insti without you. I often wonder insti aake kya mila but now i know ki ek lifelong friend mila. Love you bro

Nithin Kumar : Ganesh! 😊 IC was definitely amazing cz of you. Do you remember the first time we met? 😊 KK Reddy is still driving around. Always was amazed at your insti explorations - Vihar Lake etc. Loved your semex explorations too.. Some regrets in not hanging around much but all the best for Washington!! Stay amaze 😊

Pravin Raut : I remember the incidence when we first met regarding the Innovation cell's work. From there, we came a long way by creating memories with trekking, cycling and that adventure to the Vihar lake. But kitana polite hai bhai tu! I will remember your gift from Istanbul. I have experienced your roller-coaster ride in the insti, but finally tune bohot machaya. USA mein bhi machate raho and hope ki teri articles padhne ki aadat muze bhi lag jaye:)

Animesh Singh : Bro you're the Diego of our grp(find out who he is yourself as he likes exploring like you :P)... Extremely calm, full of knowledge and nonetheless the go-to person for exploration tips and street food locations. Though I broke your streak of getting back from Vihar Lake uncaught, it was a thrilling adventure xD.... Your vocab that gets reflected in your comments are truly astounding. No doubt your comment gets more reacts than the original post. All the best bro for your future that awaits you in USA

Kireeti Akkunuri : I don't remember when we first talked either to be frank. But it was not until biodiversity that I got to know you better, and the raw passion you had for the work that you do. That, and I found it funny how you seemed to not have realised that you had an accent after you returned from semex! :P I look up to your Insti journey in awe because I see how talented you are and how you utilised it well. All the best, Kireeti

Aashish Prateek : Thanks mama!😂😂 Yeahh, it's good that things don't change sometimes. Even till the very end like on Monday, frantically gathering answers to finish the assignment. Although it was good that we ran out first opportunity we got, I do regret that we never really got the chance to have a proper conversation. I hope we do get that chance in the future. Good luck for your future

Atharv Nandapurkar : Bhagwan Ganesh! Tera enthu for knowledge, news, facts, trying new things kaafi commendable hai. Aise hi current affairs puche toh updated rakhna humein. Gokarna trip mein kaafi maja aya. U are a dedicated person along with being enthusiastic. Aise hi rehna aage, and let's hope apn milte rahenge. Good Luck for your life ahead

Abhijeet Aanand : Hey man!! I should apologise you for the my shoddy work in XLR8. Tbh, I sucked then. But, otherwise, H2 life couldn't be complete without you guys. Especially those talks at the mess table. We kept on bumping at arbit places in course of these 4 years. The most vivid one is when u wanted to get your delivery collected but were stuck in bathroom lol. Man, you are passionate about whatever u do. Maybe I forgot to mention that your piece on biodiversity in IITB was amazing. Keep up the good work man. Let's stay in touch.

Hrushikesh Sahasrabuddhe : Ganya bhai, utha jaa, 9:30 ko class hai bro teri! Saale tere se jyaada toh tera acad timetable toh mujhe yaad rehta hai 🤔. Kya mast insaan hai bhai tu, Ek hi saal mein kya jabardast U turn maara hai bhai tune. Kitne saare memorable events saath mein experience kiye hai bro hum dono ne. Voh keventers mein tu mai aur Pravin ki pic yaad hai?:p Kisi ko impress karne ke liye kheechi thi!:p Hope you remember;) We could never go on a long trek but voh choti choti so called treks se hi mera man bhar jaata tha bro😄. Isliye hamesh apni Aarey vaali trip katata tha bro.🙏 But in sab mein sabse jyaada memorable toh apne voh late night Gymkhana grounds vaale walks hi rehenge bro. I still remember kitn

Goru Meher Ritesh Kumar : Yo Ganesh!! Remember scheduling together, special spots in the library, the library basement, Lucy and Snow Piercer, Strawberry milkshake at H16, Sameer Hill and my acrophobia, conversations late night at H3 bus stop, Facebook profile stalking, me escaping from your trek proposals, our arguments regarding something and me getting things my way, watching big bang theory together, you scolding me for short replies, trips to the temple, Running together, procrastinating together, PC lab. These are just a few chapters of my insti life-book, and The book would be a just a bunch of papers if it weren't for you. Thank you for always being there mate and best of luck with your PhD.

Tangirala Pavan Bhargav : GC!! I always liked the curiosity and adventurer in you. Wanted to know more about your technical side, but it just didn't happen. Those spontaneous trips were some of the highlights in my insti life that I will always cherish. I didn't get busy, was just waiting for your call saying "let's go here this time". Keep smiling like you always do.

Vinayak Gupta : Yo Ganesh! Lucky apna in 4 saalon main kisi ne visarjan nahi kiya 😊. You are a very unique person with unique interests. Though I was never part of a risky tour in the corners of campus but the stories I have heard are awesome. I am a big fan of your English, I knew tu GRE pakka phodega. The most interesting part being the way u take interview, IIM wale din se pehle kya epic interview liya tha yr I'll never forget that. Good luck to you for your life ahead, hope so milte rahenge 😊

Varun Sule : Hey, I remember the first time we properly met in H2 lounge. Your inputs and guidance proved to be very helpful, and I'm glad we could start our friendship on a very solid foundation then, though I regret that weren't able to connect in first and second year. I'm extremely proud of your passion and drive, and with all the efforts you've put in with us, it wasn't at all difficult to be confident about you because we believed in you. It was fun working with you. Let's hope we meet up sometime in the future, and stay in touch!
