**Shobhna Misra :** Starting from working with you during Inter IIT Tech 2018 to working with you as part of the council, it has been an amazing experience! Your level of professionalism is unparalleled and admirable. I am really honored to have gotten the chance to work with you. Thank you for making my tenure more bearable and reducing my load by completely taking charge of Projects. And, of course, I am indebted to you for your advice and suggestions when I needed it, and also for helping me do my job at many difficult turns. All the best for your life ahead, and I'm sure we'll stay in touch!

**Shantanu Thada :** Ranade!! Insti ka sabse machau tech person!! DD year me infi gossip and bakar kaati hai!! Aero dept. ke neeche waale discussions se lekar ISRO interview tak, knowing about your achievements and future goals, I feel you're one of the most mature and pragmatic friends I have had. Infi responsibility and courses lene wala, and har responsibility ko full dedication se karna! You're truly a born leader! And tu jab bhi ye post padhe, I want you to remember this, and not let anyone else make you feel otherwise. Baaki, I can proudly say that mera bhi ek machau friend ISRO me hai!! :D

**Riya Singh :** Hello Ranade!!! When I was new in IITBSSP, due to your beard I used to think you were in 4/5th year and given you were doing DICs with my batch, I thought you have failed in the course. I have a huge respect on how you handled your responsibility of subsystem leader so well in your 3rd year without any senior guiding you. In past 2.5 years, you have been an awesome mentor for me and have helped me whenever required without any hesitation. You have been an integral part of my insti life - from celebrating festivals together, summer or in-sem lukhas, ICSS and list goes on. I have learnt a lot of things from you but one thing which no one else has taught me was - "Hard work and sincerity is not only required for professional succes but we need to work hard for success of our relationships with people as well".

**Aditya Patki :** Ranade aapke jitna backchodi karane waala kabhi nahi mila, some of my most embarrassing memories can be credited to you. But, inn sabke baad bhi agar kabhi kuch jyaada bol diya ho aapko toh uske liye sorry. Maybe mai aapko ek senior se jyaada batchie ke tarah dekhta tha. H5 canteen me har raat ka khaana aur Hyderabad trip ke planning se leke end tak ki yaad hamesha saath rahegi. Ab job me bhi sabko systems engineering ke paath padhana, hum toh thode kacche students reh gaye. Thanks for all the guidance and support, all the best!!

**Sukanya Kudva :** Hi Ranade, while in Satlab I have seen you both as a serious , hardworking person and as a lukka-loving senior. I appreciate how you have always tried to balance work and fun. You have been open and honest whenever I had come to you for advice in my sophie year (thanks for that!). Wish you good luck for your future ahead!! 😊

**Sanskriti Bhansali :** Thanks for the grilling and support throughout, I think you will always remain one of the important seniors to have shaped my skills when it comes to team leadership and professionalism. And thank you for giving me "there is nothing like worst case worst case." I shall remember that always. I don't think much is left unsaid. Yet if there is I will text 😂

**Aashay Biyani :** Aniruddha, you have been my ideal since I started knowing you (and your achievements). Your professionalism is unparalleled and I still try to achieve that. All of your advice and help that you gave were truly amazing. It all started with Inter IIT. Thanks for taking me in Satellite Team. I learn some important lessons there. And kaafi BT diya aapko for Bill submission and somewhat in Inter IIT. But thank you for everything.

**Athul Arun Nambolan :** Yo Ranade Bhai , the wise man. Behind that smiling person there is an extremely wise guy and an equally funny person. We met in a tough situation and that definitely strengthened our friendship. Couldn't have survived hosting techmeet without you. Will remember all those discussions and walks around insti. Hard to believe that so many of our philosophies are coherent. It's a long journey but I am sure I am sure you will be doing your best at ISRO. All the best dude !

**Shashank Verma :** Boiiiiiiiiiiiiiiiiiii, Tu mast aadmi hai, sab karta hai, sab me machata hai. I always have huge respect and "platonic" :p love for you. We have amazing memories together. Bhulna mat mujhe ISRO jaake, me aaunga tere pass 5-10 saal me, fir sath me bakchodi karege apan :D. I am already missing our late night talks. PS: Tera Amazon Echo dot (Alexa) mere pass hai and I don't think tujhe vo vapas milne wala hai. Anyway, now Alexa loves me more :p :p :p

**Alok Kumar :** Hi Aniruddha!! You are among those people whom I am grateful to have come across in my insti life. Satlab provided me an opportunity to observe and learn from a wonderful set of people in return of small efforts from my side. Seeing you and Anmol lead the team with best interests at heart all while managing your own time and insti life was truly inspiring. You have always been helpful enough to reach out, inquire and help people around. Handling discussions with all rigour and still managing to diffuse the seriousness afterwards with your (sometimes embarrassing) antics is something unique I enjoyed about the level-headed, tech-oriented you. Wish you all the best in your future endeavors.

**Yash Shrivardhankar :** URAnade! I doubt if you recognize yourself when you shave xD. Bhawa it was such a great time with you in SATlab <3. Masta marathi gaani aikaychi! Those friday meets and fine :p. Khoop genuine fundae dile re tu mala! You've got great managerial and communication skill man. Also you don't fall back at all the technical work which kinda makes you a lethal at any given task for that matter. It was great to witness and work under such an influential senior! Parat bhetlyavar Mamledar la jau kai. Take care and stay in touch bhawa!

**Mrigi Munjal :** RANADE! Thanks for teaching us so many things about tech and leadership and ideas and ChEA and bollywood and the dark side of YouTube. I know you'll have an epic journey ahead! Stay in touch. -M

**Sakshi Dayal :** Hey! We haven't talked much but there's a lot I had to tell you about. You're one of the finest people I have heard of. You are a person who gives himself completely to a cause and makes it happen. Glad to have known you! Hope you achieve whatever you aspire for! :)

**Shreya Laddha :** Ranade!!! Tech God!! Sab aata h inhe. RG God. Life mei koi pain hi nhi h, always smiling. Pehle Satlab mei machaya ab ISRO mei machayenge. No one can dance like you do. Sab baccho ki infi li h aapne. Aapki kami toh hamesha khalegi. Will miss you a lot. Thanks for teaching us a lot and all the very best for your journey ahead. Also, will follow your advice and try to not skip lunch :))
