Materials Science

Yearbook
2020

Pushan Bal : Thank you very much for introducing me to that special milky bar. I have loved roasting bhansali and siddharth with you. Hope we will stay in touch. :D

Anurag Bhaskar : Kitna bola tuje lappy lene ko. Pros rehte abhi tak R6 mei. Chalega Minecraft hi sahi.

Aayush Anurag : The “WOOO with a Dab” guy. Tuhin baba, the chilliest guy that I met in insti. I think that sight of you sitting on the chair, mouse in your right hand & phone in your left, wearing a T-shirt (depends on weather 😊) & playing games, with numerous food boxes (Oven Story & Momos ♥) lying around, I'll ever forget. I love your intensity with which you explain topics, elaborate on games, memes from Reddit or recount stories. Your House Party was the bestest of times, the whole H2 Meta Family spent together. Saath mein aur Poker, Catan, CS, UNO khelna tha aur Gaming Nights karne the. Battle Royale Pro, isi tarah gaming mein machate raho, Bhansali ke saath ladte raho aur hame ghar pe bulate raho.

Ashutosh Kumar : Hiiii Tuhin! Thanks for teaching me the fact "Why settle for less when we can do so much more :)" Texting you and Arman simultaneously was fun 😊 Remember making plans to keep a bad dinner so that we can have a Pizza party 😊 I don't know Faaso's ke kitne boxes tumhare room deliver hue hai and those pizza boxes ka pile_/_ Thanks for being so enthusiastic about all the birthday plans I suggested ♥ and yes thanks for the treat and lunch at your place. Let's all meet again soon and haa, All the best for you DDP ♥
